TAILORED AT FASHION PARK

the man with no worries about waistliness

You've seen such men—probably you're one of them yourself—slender, upright, wiry chaps who aren't obliged to go in for the great American sport of "reducing." We have a Fashion Park suit that is exactly the model a slender man looks well in—snug-fitting,

trim, slender developments—ideas that suit young figures—styles that our tailors at Fashion Park develop splendidly. Priced at \$45 and better.

Suits in other makes from \$27.50 to \$45.

Electrical Fixtures
Made to Your Order

Has Your Home a Robertsonian Interior?

A Home Interior Vitalized By Electrical Artistry?

Plan Now For Christmas

Unostentatious electrical fixtures should be changed now before the Holidays. Perhaps such a change would entirely transform the appearance of your home. We will be glad to tell you what we think can be done.

THE ELECTRICAL idea is important in home decoration now. And it is something that Robertson believes should be ADAPTED to the home and not ANNEXED. The shape and size of a room, the appearance of the walls and corners and the decorative results desired each plays its part in the ROBERTSONIAN method of providing ELECTRICAL FIXTURES.

Every home-maker should choose his or her electrical fixtures PER-

SONALLY. And should go still farther—by specifying that they shall be ROBERTSONIAN both in design and installation.

You thus have the advantages of fixtures of any style finished in any shade or manner ESPECIALLY FOR YOU, and installed by artisans who are trained and up-to-the-minute in every phase of this new art, and who never forsake good taste regardless of price. The ROBERTSONIAN way is the newer and better, as you can easily find out.

ROBERTSON ELECTRIC COMPANY

Progress is being made in the building of the home of the Santa Ana Cabinet company in the 900 East Fifth street. The block on East Fifth street. The company is now located at 411 East Fourth street.

Gerrard Bros. have begun the work of remodeling the store room recently vacated by Dickey-Boggerly Furniture company.

Mr. and Mrs. W. E. Winslow of 110 West Twentieth street are planning a journey through Mexico. They will leave here November 9. Headquarters will be made at Mexico City and the various trips will be taken from there. They have set no date for their return.

Mr. and Mrs. H. R. Bristol of Owensmouth were visitors in Santa Ana Tuesday.

E. L. Lewis, who resides three miles from this city, left yesterday on the Continental Limited of the Union Pacific for a trip to Fairmont, Minn.

Mr. and Mrs. X. V. Ayres of 2122

North Main street left today on the Los Angeles Limited of the Union Pacific for an Eastern trip. Mr. Ayres will visit Detroit and Indianapolis, while Mrs. Ayres will go to Omaha. They plan to be away about a month.

L. W. Tuttle, who represents the Nickel Plate railroad in Los Angeles, was a visitor at the local Union Pacific office Tuesday.

Master Raymond Kendall, son of Mr. and Mrs. Arthur C. Kendall, Pasadena, came to Santa Ana last Friday for a visit with his grandparents, Mr. and Mrs. R. E. Miles, 535 Orange avenue. Mr. and Mrs. Miles drove the lad home Monday afternoon.

Mr. and Mrs. A. N. Cox went to Los Angeles to assist in celebrating the birthday anniversary of their daughter, Miss Anita Cox.

Mrs. W. H. McMahan, who has been spending the past two months with her mother, Mrs. S. C. Little, of 602 Orange avenue, will leave next Tuesday over the Southern Pacific for her home in Reno, Nev.

Mr. and Mrs. Thomas A. Murphy and little daughter of Los Angeles are guests of Mr. and Mrs. J. P. Murphy, at 915 Winter street. They are here on business and pleasure.

Mr. and Mrs. W. A. Webster who have been residing in Sacramento for some years, have come south to live, and are at the home of Mrs. Webster's mother, Mrs. S. T. Miller, 602 East Sixth street. Mr. Webster is negotiating a business transaction and may settle at Glen Dale.

Mr. and Mrs. G. M. Ross and two children are newcomers here from Spokane, and have bought a home in Kilson Square. It is a handsome six-room house and sold for \$6000. H. J. Selway negotiated the transaction. Mr. Ross was a well known truck and automobile dealer in the northern city.

Mr. and Mrs. Frank L. Eastman have moved to a ranch at Costa Mesa, having exchanged their beautiful stucco home at 826 Cypress avenue with Mr. Guthrie of Los Angeles. The Eastman home was valued at \$8500. H. J. Selway assisted in making the trade.

Recent guests at the home of Mr. and Mrs. P. L. Briney, 626 North Ross street, included their son and daughter, Mr. and Mrs. E. A. Johannessen of Fullerton; Mr. and Mrs. Ernest Rhubottom and five children, from Los Angeles, and Mrs. Nora Rice and son Roy, also of Los Angeles. Mrs. Rhubottom is Mr. Briney's niece and Mrs. Rice is Mrs. Briney's cousin.

John E. Hargrove of Tustin left over the Southern Pacific lines Tuesday for New Orleans.

James Irvine sr. of the Irvine ranch, who has been at the ranch on a visit, left today over the Southern Pacific on his return trip to San Francisco.

Homer L. Haney of 928 West Pine street will leave Saturday for a brief business trip to San Jose.

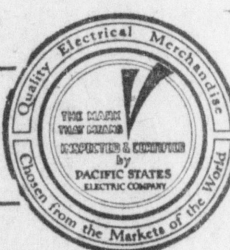

Mrs. A. C. Hawkins, of Bradford, Pa., is a guest at the home of her cousins, Mr. and Mrs. G. L.

NEW

USED

Reo Trucks
DALE & CO.

Wilbur, South Sycamore street. This is her first visit here. She is delighted with the city.

A. S. Langham, secretary and treasurer of The Shavo company, was here today from Stockton looking over the company's new factory building now under construction on South Main street. He is looking forward to permanent residence here starting with January 1, when the new local plant will be placed in operation.

Planning to attend the U. S. C. California game Saturday, Miss Helen Menges, a student at Berkeley, will be among those coming down from the north. She will be in Santa Ana to spend Armistice day with her mother, Mrs. Stella Menges, 1602 East First street, returning to Berkeley Monday night.

Mr. and Mrs. L. Kile of Des Moines, Iowa are guests of Mr. and Mrs. Frank Rowe, 1328 Maple avenue. This is the Iowa's first visit to the southland in nineteen years and this time they expect to remain, locating in Southern California, preferably Santa Ana.

Mr. and Mrs. J. Q. Johnson Jr and son, Marvin, have arrived at Orange from Kirksville, Mo., with the expectation of passing a year in Orange county. Mr. Johnson is the son of J. Q. Johnson, 818 East Chapman street, Orange.

Will Fowler was home today from Ramona Springs, where he has been taking the baths for seven weeks. He declares his health has been vastly improved and that he will return to the springs Saturday for further treatments.

CHAMBER PUTS APPROVAL ON CITY NURSE

The Santa Ana Chamber of

Commerce, through its directors, was on record today as favoring the appointment of a city nurse to work in connection with the health department. Several civic organizations have declared, through their officers, that a city nurse is needed here to assist in health work the directors were told at their meeting yesterday. The nurse would function as a part of the health department and would be in touch with all people

held under quarantine for contagious diseases, it was pointed out. She also would examine school children to detect signs of epidemics. The proposition to employ a city nurse has received, in addition to the chamber of commerce endorsement, that of parent-teacher associations, the Ebell club, D.A.R., W.C.T.U. and the Woman's club, according to Mrs. Panunzio, Americanization worker for Santa Ana

schools. M. J. McCurdy, city sanitary inspector, has also given approval she added.

Vienna is reported to have consumed 113,992,500 liters of beer the last year.

SOOTHES AND HEALS No need suffering any more with catarrh. C. S. Kelley guarantees that if a Hyomel outfit does not relieve you, he will pay for it himself.—Adv.

You'll Be Boosters—For Diamonds Too

You may think we are over-enthusiastic about these Diamond tires. But we're not.

You'll be just as enthusiastic as we are after you've tried to wear out a set of them.

A man never has to be sold on Diamonds more than once. After that he becomes an in-cognito Diamond salesman himself, and it is these voluntary salesmen and Diamond users that do most of our selling for us.

Diamond enthusiasm is catching. Come down to Andrews and Miller's and expose yourself.

Red Seal Concert Selections

Memory's Garden (G. Danni-L. Danni)	Frances Alda	946	1.50
Coming Home (Earley-Wilmet-Willey)	Frances Alda		
If there is a spark of sentiment in your composition, these songs will bid it live and glow.			
Mazurka (Chopin) Violin Solo	Fritz Kreisler	947	1.50
Melodie (Paderewski-Kreisler)	Fritz Kreisler		
Time is coupling more closely together in the history of Polish music, the names of Chopin and Paderewski.			
Requiem—Confutatis maledictis (From the Accused Call Me Forth) (Verdi) In Latin	José Mardones	6420	2.00
Stabat Mater—Pro Peccatis (For His People Understanding) (Rossini) In Latin	José Mardones		
These bass numbers have rolled nobly, in their time, through many a vast cathedral.			
Love Sends a Little Gift of Roses	John McCormack	961	1.50
Wonderful One	John McCormack		
These are popular waltz songs, and both of them love-songs.			

Melodious Instrumental

Vision of Salome—Waltz Piano-Accordion Solo	Pietro	19133	.75
Kiss of Spring—Waltz	Pietro		

Joyce's "Vision of Salome" has become a classic among dance-waltzes. Combined here with Rolfe's "Kiss of Spring."

Negro Spirituals

Hush, Somebody's Calling My Name	Bethel Jubilee Quartet under the direction of Rev. T. H. Wiseman	19119	.75
You Must Come In at the Door	Bethel Jubilee Quartet		

The power of the American negro to "raise a spiritual" is one of the wonders of music. Here are two good examples.

Light Vocal Selections

Struttin' Jim	Miss Patricola with The Virginians	19160	.75
Nobody Else Can Love Me Like My Old	Billy Murray		
Tomato Can			

This record affords a funny combination of Negro and Irish dialect songs.

Dance Records

Sittin' in a Corner—Fox Trot	Paul Whiteman and His Orchestra	19161	.75
Maggie! "Yes Ma'am!"—Fox Trot	Manhattan Merry-makers		
"Maggie" (remember her?) introduces the Manhattan Merry-makers under Hugo Frey.			
Little Butterfly—Fox Trot	Paul Whiteman and His Orchestra	19162	.75
So This is Love!—Waltz ("Little Miss Bluebird")	The Troubadours		

These are fine examples of the most modern kind of dance orchestral scoring, and they "dance easily."

Nobody But You—Fox Trot	Brooke Johns and His Orchestra	19163	.75
Love, My Heart is Calling You—Fox Trot	Manhattan Merry-makers		

Fox-trotters will like these two numbers. You will find the new orchestra has its own style.

Births

CALIN—At the family home, 210 East Twentieth street, city, Morris Calin, a son, born November 7, 1923.

HANKEY—At the family home, 1000 Beach, November 7, 1923, to Mr. and Mrs. Carl Hankey, of Capistrano, a 10-pound daughter, Eleanor.

Death Notices

A Word of Comfort

It is the lesson of human experience that only as we come to recognize our need of God do we come to know Him. When you feel that all human endeavor to satisfy your need is fruitless, throw yourself upon the loving kindness and mercy of God and you will not seek in vain.

KNEEN—At his residence, 715 Minter street, Santa Ana, Nov. 7, 1923, Charles F. Kneen, aged 71 years.

Mr. Kneen is survived by his wife, a son, William E. Kneen, and a daughter, Mrs. E. W. Crawford of Tulsa.

Services will be held from the Winfield Mission funeral home, Saturday at 10 a. m.

Interment will follow in Fairhaven cemetery.

ZIMMERMAN—At her home, 210 West First street, November 7, 1923, Mrs. Louise Zimmerman, 73.

Funeral services will be held Saturday at 10 a. m. at the Rev. W. E. Roberts officiating. Burial in Fairhaven cemetery.

Mrs. Zimmerman is survived by her husband, W. H. Zimmerman of the home.

HENRY—At her home, 603 Eastside avenue, November 8, 1923, Mrs. Mabel Henry, 55.

The remains will be sent by Smith and Tuttle to Campbell, Calif. for interment.

She was the sister of Mrs. Max Wells and Mrs. M. E. Bowman of this city and the mother of Evelyn Henry and Irwin Henry of Campbell.

JOHNSON—At the home of his daughter, Mrs. D. P. Goodrich, 525 West Eighteenth street, November 7, 1923, Gustaf Johnson, 95.

Funeral notice to be given later by Smith and Tuttle.

Special meeting of Santa Ana Lodge No. 241, F. & A. M., Friday, Nov. 9th, 7:30 p. m., to confer the First Degree of Masonry.

All Masons invited.

Oil Worker With Neck Broken Continues Gain

S. R. Miller, Huntington Beach oil worker, who received a fracture of the skull and a broken neck in an accident Tuesday, was continuing to improve in condition today, the Community hospital reported.

'Influence' Driving Charge Upheld Here

Jack Cavanaugh of Costa Mesa today was awaiting arraignment in the superior court here on a charge of driving an automobile while under the influence of intoxicating liquor, he having been held to answer at a preliminary hearing before Justice J. B. Cox. Cavanaugh is at liberty under \$300 bail.

Have Color In Cheeks

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the pleasing results. Millions of boxes are sold annually at 15c and 30c.

News Briefs

None of Santa Ana's public
schools will be in session next
Monday, Armistice Day, J. A. Cran-
ston, superintendent of city
schools, announced today. The Ju-
lia C. Lathrop and Frances E. Wil-
lard junior high schools, the Santa
Ana high school and the junior col-
lege will all enter floats in the Ar-
mistice Day parade to be held in
the morning at Orange.

More than 500 tickets for the
Harry Lauder entertainment, to be
given at the high school auditorium
here the night of November 15, had
been sold up to noon today at the
Santa Ana book store. A line that
extended almost half a block await-
ed the opening of the sale this
morning. Members of the Santa
Ana Musical association, under
whose auspices Lauder is to ap-
pear, predicted that the entire al-
lotment of seats would be sold to-
day. Tickets that are not disposed
of will be sold tomorrow morning,
it was announced.

The grocery store at 209 East
Fifteenth street has been trans-
ferred by W. E. Mars to S. T. Car-
lyle, as shown by a bill of sale on
record today.

Directors of the Y. M. C. A. here
will meet the early part of next
week to develop plans for a drive
to collect pledges to the building
fund that have been delinquent
since the first of July. E. B.
Sprague, treasurer, said today.
Pointing out that on November 1
delinquencies totalled \$19,026,
Sprague said the directors have
been handicapped in meeting their
obligations because of failure of
approximately 400 pledgers to meet
their pledges.

Further discussion of the multi-
ple listing system will feature the
meeting of the Santa Ana Realty
Board to be held at noon tomorrow
at Ketter's cafe, J. C. Wallace,
secretary announced today. At its
meeting last Friday evening, the
board voted to adopt the system.
A committee has been making spe-
cial investigations and will report
tomorrow, Wallace said. Adoption
of by-laws and constitution prob-
ably will be the next step, it was
said.

Chicken thieves have been active
at Fairview and vicinity, a number
of ranchers have reported here.
One man lost 100 in a week, it was
learned.

Invitations were out today to a
reception to be held in honor of
Victor E. Teany and his bride of
ten days at the Church of the Mes-
siah, Seventh and Bush streets, to-
night at 8 o'clock. Mr. and Mrs.

EBELL BAZAAR
LURES THROG
HERE TODAY

Offering a large variety of home
made articles, the bazaar of the
Ebells club, in the former office of
the Southern Counties gas com-
pany, Fifth and Sycamore streets,
today was the center of attraction
for a large proportion of Santa
Ana's feminine population.

At the same time the men had
an interest in the bazaar from the
fact that luncheon was served at
noon from 11:30 a. m. to 1:30 p. m.
Their further interest was contin-
ued with the announcement that
supper also was to be served this
evening, from 5:30 to 7:30 o'clock.

The service of meals composed ex-
clusively of home cooked goods will
be repeated tomorrow at the same
hours, it was announced today by
Mrs. E. S. Morrow, chairman of
the ways and means committee of
the club.

In addition to dispensing home-
made foods and candies, the women
have a number of booths in which
are offered for sale, among other
things, table linen, white elephants,
aprons, unbleached muslins, fancy
work, table linen, ice cream, pot-
ted plants and wearing apparel,
the latter featuring the rummage
sale department of the display.

The bazaar features will be
open tonight, tomorrow and tomor-
row evening, with the rummage
sale only continuing through Sat-
urday.

Perhaps one of the interesting
exhibits of the bazaar is the dem-
onstration by Mrs. Harry Zaiser
of extracts, with fresh crisp cook-
ies being given away in the demon-
stration.

Under the direction of Mrs. T.
A. Winbiger, a musical program
has been developed for each eve-
ning, with the Chandler Music com-
pany donating the use of a piano
and Randall and Kester providing
a De Forrest radio receiving set.

The program tonight will con-
sist of numbers by the orchestra
of the First Methodist church,
with the Rev. H. J. Hughes, as-
sistant pastor of the church, di-
recting, vocal solos by Mrs. H. B.
Van Dien, and selections by the
boys and girls glee clubs of the
high school. The clubs will sing
collectively and individually. It
was announced that Quartet num-
bers also be included in the pro-
gram.

Interest in the program for to-
morrow night was heightened by
announcement that D. C. Clantoni
will present a number of trombone
solos. The orchestra and glee club
of the Francis E. Willard high
school will provide other features
of the program.

Roland E. Dye will be host and
hostess. Teany is assistant Boy
Scout executive under Dye, who
heads the Scout activities in this
county. The couple were married
at Columbia, Mo.

The two-story brick building
erected by Kaplan and Roth near
East Fourth and Lacy streets, is
nearing completion. There are two
large store rooms below, one al-
ready occupied by the Santa Ana
Auto Wrecking company. There
are twenty rooms on the second
floor, which have been leased to
Louis Weinberg, a merchant in the
California market.

The Rev. St. John O'Sullivan,
pastor at San Juan Capistrano
mission, urges everyone, and es-
pecially members of Capistrano In-
stitute, Y. L. I., to listen in on the
radio tonight to hear the lecture
on the mission by Walter McIn-
tire, who is giving a series of
talks from the Times station.

Society

W. C. T. U.

Tuesday afternoon, November 13,
at 2 o'clock will be held the regular
session of the W. C. T. U. at the
United Presbyterian church, with
Americanization as the theme of
the program.

Mrs. J. N. Osborn, in charge of
the afternoon, has announced that
the speaker will be Mrs. Panunzio,
Americanization teacher of the city
and a woman of rare charm of
personality as well as an interesting
and forceful speaker.

CHURCHES PLAN
SERVICES FOR
'DADS,' SONS

Virtually all plans for the observ-
ance of National Father and Son
Week in this city have been com-
pleted, T. P. McKee, boys' work
secretary of the Santa Ana Y. M.
C. A., announced today. Observance
of the week will begin Sunday, No-
vember 11, with special services in
many churches here.

The Rev. W. E. Roberts, pastor of
the First Presbyterian church,
will deliver a special sermon on
Sunday morning. The Men's Broth-
erhood will hold a banquet for the
boys of that church and their
fathers Tuesday evening. Ralph G.
Cole, of Los Angeles, will be the
principal speaker.

Special services will be held by
the First Congregational church
and there is a possibility that the
First Methodist church will follow
the same plan. An elaborate din-
ner has been scheduled for Tues-
day evening by the Baptist Men's
club. Similar plans are under way
in the United Brethren, Christian,
Episcopal and other churches, it
was learned.

The Lions, Rotary, and Kiwanis
clubs of the city have all announced
their intention to include the boys
in their program for the near fu-
ture. A "Dad's Night" dinner is be-
ing planned by the members of the
Santa Ana high school Hi-Y club.

The Y. M. C. A. will co-operate
wherever possible with all organiza-
tions in the successful carrying out
of the various programs planned
for the week, McKee said.

ENRICH YOUR BLOOD

With organic iron—Nuxated Iron—it's like the iron in your blood and the iron in spinach, lentils and apples—will not blacken or injure the teeth nor upset the stomach. Entirely different from metallic iron. It quickly helps put strength into your muscles and color into your cheeks. Get your doctor to make your red blood count today, then take Nuxated Iron for a few weeks and watch your red blood corpuscles increase; see how much purer and richer your blood becomes; feel what a difference it makes in your nerves. Over 4,000,000 people annually are using Nuxated Iron. Your money will be refunded if you do not obtain satisfactory results. In tablet form only. At all druggists.

The Social Mirror

Missionary Society

YOUNG WOMAN'S
The Young Woman's Missionary society of the First United Presbyterian church held its annual thank offering meeting Tuesday night at the church, when about forty members were in attendance to enjoy the good fellowship and partake of the excellent dinner served by the hostess committee with Mrs. T. H. Warne as chairman.

After a brief devotional service, the speaker of the evening, Miss A. B. Atchison, head of the United Presbyterian College for Girls at Cairo, Egypt, was introduced. In her pleasing manner she told of the work of the college, that of giving home life, social life, recreational life, educational life; and of greatest importance, spiritual life, to the girls who come to the college.

Following this intensely interesting and inspirational talk the annual thank offering was taken, and proved to be the largest in the history of the society, netting the sum of \$273.

Miss Mary Smart, thank-offering secretary, had this part of the program in charge. Miss Mary Henderson is president of the society.

UNITED PRESBYTERIAN
The Woman's Missionary society of the United Presbyterian church held one of the best attended meetings of the year Wednesday afternoon in the church parlors with the president, Mrs. William Smart, leading.

Mrs. Graham led the devotional service. Reports of secretaries were given, among them, the thank offering, which was received at last Sunday's service, and in which all the women were deeply interested. The offering was \$905 and the largest the society has yet received. The offering will be open yet for a few days and any who still wish to contribute may do so.

The society was greatly favored by having Miss Alda Atchinson, a missionary from Egypt, who spoke very interestingly on the mission work in that country, one of the United Presbyterian's strong mission fields.

At the close of the meeting a most enjoyable social hour was held and all enjoyed meeting Miss Atchinson. The committee, Mrs. J. B. Stewart, Mrs. Graham, Mrs. Will Currie and Mrs. Herbert Walker served chocolate and wafers.

Past Noble Grands

Tomorrow afternoon at 2 o'clock the P. N. G. card club, composed of Rebekah Past Noble Grands, will be entertained by Mrs. J. W. Mitchell at her home, 611 Garfield street.

Parent-Teachers

Schools in the lives of our great-grand-children were fancifully described by H. G. Nelson, Julia Lathrop principal, speaking before the Roosevelt P. T. A. Tuesday afternoon.

Basing his imaginings on the progress in schools made during the past fifty years, Mr. Nelson visioned children going directly to nature for their lessons, as they spoke a universal language. Schools will begin at home with the child scarcely out of the cradle and mothers also will attend school with mothers for teachers. Vocational training will be given by construction of small models which children will build themselves.

The assembled members found the talk most interesting and heartily agreed with ideas advanced by the speaker.

In presenting the art and education program, Mrs. E. McGaffey, city chairman for emblems and the Child Welfare magazine, asked P. T. A. members to subscribe to that invaluable journal, edited by the national president, Mrs. A. H. Reeve, of Philadelphia.

Plans were made for a candy and baked goods sale to raise funds for a school mimeograph. Mrs. A. V. Napier is chairman of the sale committee.

Ebell Travelers

With Mrs. Charles Kendall sr. and Mrs. E. B. Smith as hostesses, Ebell's First Travel section held a most interesting session Tuesday following the enjoyment of an appetizing luncheon at the Kendall home on South Cypress street.

China offered an interesting topic for the afternoon and much information was gleaned from articles printed in recent numbers of "Asia" and read around the circle at the instigation of the section leader, Mrs. W. M. Smart.

Latitude and longitude were first determined by Hipparchus of Nice about 162 B. C.

Royal Neighbors

With the recent organization of a new camp of Royal Neighbors at Laguna by Mrs. Christiana Hamill, state supervising deputy, the officers of Magnolia Camp No. 4133 of this city were selected by Mrs. Hamill to put on the floor work at the institution ceremonies held at the beach city.

Following the initiation of thirty candidates for membership in the new camp, and installation of its chosen officers, the local staff was entertained at a Laguna cafe where they enjoyed cake and coffee.

Magnolia camp will hold its usual session Monday, November 12 at 7:30 p. m. in the M. W. A. hall with the district deputy planning to be present and explain the "speedway drive" to be staged the coming year. Refreshments will be served.

Household Economics

Featuring a Day Nursery show, the members of Ebell's fourth section of Household Economics will meet Tuesday, November 13 as guests of Mrs. O. A. Haley, as guests of Mrs. E. McBurney and Mrs. G. R. Richardson, at the home of Mrs. Haley, 327 East Washington street.

Luncheon will be served at 1 o'clock and the afternoon devoted to the usual program and the shower. Members unable to be present are asked to telephone Mrs. Haley, 1038-R at the earliest possible opportunity.

FIFTH SECTION

Mrs. Ray Townsend, Mrs. Floyd Spencer and Mrs. Edward Walker will be hostesses to the members of Ebell's fifth section Household Economics Tuesday, November 13, at 1 o'clock luncheon.

The affair will be held at the Townsend home, 926 South Main street and those unable to be present are asked to telephone Mrs. Townsend not later than Monday noon.

Approximately 25,500 persons are employed in the manufacture of pianos in the United States.

SAYS DANGEROUS VARICOSE VEINS CAN BE REDUCED AT HOME

Rub Gently and Upward Toward the Heart as Blood in Veins Flows That Way. If you or any relative or friend is worried because of varicose veins, or bunched, the best advice that anyone in this world can give is to get a prescription that many physicians are now prescribing. To Celebrate "Children's Book Week"

Children's Books Reduced 20%

NEXT week is National Children's Book Week. And we wanted to do something a little out of the ordinary but the nearness of the holidays prohibits anything that requires extra time for preparation. So, we cannot think of any special event that would be better or more timely than to offer all children's books, gift editions and others, at reduced prices. Otherwise, we would never entertain such an idea. Thus, all children's books are on sale beginning tomorrow at 20 per cent, with a special reduction on the popular Volland Books.

All Volland Books, 95c

Raggedy Ann, Raggedy Andy, and all Volland gift books are specially priced at 95c each—they're \$1.25 regularly. Also included at this price is the \$1.25 line of Animal Children, Mother Earth's Children, My Very Own Fairy Stories, Wild Flower Children—and many others sold regularly at reliable bookstores for \$1.25—your choice at 95c.

Burgess Books, 48c

All Burgess books, including the Burgess Animal Stories regularly 60c at 48c.

Oz Books Are \$1.40

Instead of \$1.75

And the Adventures of Diggledy Dan at \$1.40—the \$1.00 Mother West Stories are 80c—the \$1.50 Stories All Children Love series is \$1.20—the \$2.00 Mother Goose books are \$1.60—the \$1.25 Fairy Tales From France are 95c—and many others too numerous to mention, books acquired in co-operation with the Public Library for better juvenile reading.

To Stimulate Early Christmas Buying

All Stationery Reduced 1/3

THIS store is a regular bedlam near Christmas time. We would like very much to encourage early buying and are willing to experiment with this stationery offer for a few days and see if it will help. One-third reduction from regular prices is quite a lot of money, perhaps more than we ought to indulge in, but we believe our stocks are large enough to stand the drain.

Pre-Holiday Sale of Crane's Linen Lawn and Highland Linen

All the fancy stationery cabinets that were ordered especially for Christmas are included in the sale. Eaton's High Linen and Crane's Linen Lawn in every conceivable style and color.

Fancy French imported stationery, colored borders, fancy envelope linings, boxes that are to be used as glove boxes when the stationery is gone, hand-bordered and hand-deckled edges on fine stationery.

There isn't a new style made, a new fashion in fine stationery, a new idea for gifts, that is missing. The stock is all fresh and new, much of it unpacked only this week. You have never viewed such a large selection in Santa Ana before.

The entire line is reduced one-third. Thus, the 60c boxes will be 40c—and on up to the \$15.00, which will sell at \$10.00.

It is surely the time to choose gifts.

Little Maid Enjoys Two Celebrations Of Birthday

Little Miss Mary Henrietta Nau reached her eighth milestone Sunday, November 4, and celebrated by having a chicken dinner with all the accessories including a nice birthday cake with eight twinkling candles.

For the Sunday dinner, Mary Henrietta who is the attractive small daughter of Mr. and Mrs. Samuel Nau, 206 South Birch street, invited her grandmother and aunties and enjoyed a truly family gathering.

But on the following day, she invited her little friends and playmates after school and had a real party with games and a general good time with plenty of ice cream and punch, just as children most like.

Master Hollis Wilcox was the winner of first prize in a contest and Miss Velma Wilcox received second prize. Her little friends brought her many nice presents dear to a little girl's heart. Those enjoying the afternoon with her were Marjorie Knox, Dorothy Preble, Virginia Herschler, Ruth Brenner, Velma Wilcox, Hollis Wilcox, Paula Nell Clayton, Lorain, Junior and Jack Clark and little Virginia Bell Bruns.

Bazaar Plans

Truly the season of bazaars, the autumn weeks fly by, each marked by several successful affairs presented by clubs, church societies and other organizations, all designed with a two-fold purpose, to aid the Christmas shopper and to add to club treasures.

Opening today at the former office of the Southern Counties Gas company in the Masonic building, the second annual Ebell bazaar bids fair to eclipse that of last year, which was one of the biggest things the Ebell society has ever put over.

Beautiful booths filled with equally beautiful articles, offer charm to the eye, and the particular shopper is able to find articles to suit her fancy with the trouble whatever. In fact, the trouble seems to come from attempts to make a selection from so attractive an assortment.

Large crowds of people were anticipated for the luncheon and supper which will be a feature of the first two days, with Mrs. George Balderston as chairman of the committee. Delightful and appetizing dishes will be served at each of the two meals, members of the Third Household Economics section were to serve today, with their leader, Mrs. F. M. Robinson in charge.

Tomorrow, Mrs. George E. Reyburn and the members of the Second Travel section of which she is leader, will preside at both luncheon and supper hours.

First M. E.

An annual affair to which people look forward, is the bazaar of the First Methodist Aid society which this year will be held in the church basement Thursday, November 15. The date originally chosen was found inconvenient to so many that the fifteenth was finally decided upon after much deliberation.

All the usual booths will be featured including the quilts and comforts for which the bazaar is noted. One of their famous luncheons will be served at noon and a baked goods sale will add interest.

Happy Children Romp At Birthday Party Of Comrade

One of the happy affairs of recent date in childhood's charmed circles, was the party with which Master Ralph William Gill's fifth birthday was celebrated at the home of his parents, Mr. and Mrs. Gill of 511 West Seventeenth street.

With the laddie's devoted grandparents, Mr. and Mrs. A. L. Hansen, aiding in directing the games, Mrs. Gill planned a merry afternoon for the small folk who gathered at an early hour. One lively game yielded prizes, little Miss Ruth Greenwald and Master Paul Pugh being the lucky winners.

When the little guests were conducted to the dining room they found an attractive table centered with pink posies and ferns and bearing a beautiful birthday cake with five pink candles. This was served with ice cream and candy.

Among the "grown-ups" who enjoyed the children's pleasures were Mrs. Gill and Mr. and Mrs. Hansen, the Hancock, Mrs. Fowler, Mrs. Merritt, Mrs. Shields, Mrs. Smith and Mrs. Pugh, all of whom had small sons or daughters among the guests.

The small folk sharing, Ralph William's happy birthday were Ray and Lorine Shields, Ruth Greenwald, Mary Jeanne Ramsey, Margaret Shauer, Dorothy Stafford, Elma and Wanda Smith, Billy and Richard Hancock, Inez and Paul Pugh, George Paul Jr. and Harold Lambert.

Dinner and Shower Reveals Date of Early Wedding

One of those delightful "open secrets" which people love to know, will be a secret no longer following the charmingly appointed dinner with which Mr. and Mrs. W. N. Prince last night entertained at their home, 432 South Broadway, honoring Mrs. Celia See and her fiancé, Murray Vandermast.

The romance between the two popular young people, has been developing for some time and was accepted as one of the aforementioned "open secrets" but in the friendly intimacy of last night's dinner and the gift shower which followed it, announcement was made that the wedding was to be made that of the very near future. Mrs. Prince used a low bowl of roses to center her table and guests found their places by means of gay little bride and groom cards. Seated around the friendly board were the hosts, Mr. and Mrs. Prince, the honor guests, Mrs. See and Mr. Vandermast, Mr. and Mrs. A. A. Vandermast, Mr. and Mrs. Walter Vandermast and son Newell, Dr. and Mrs. J. J. Jacobs, Miss Eva Newell of Los Angeles and Mrs. Hattie Wright.

Following the dinner, the honor guests were quite overwhelmed to find themselves showered with gifts, all designed for use in the culinary department of the new home so soon to be established.

S. A. Women's Club

In a home rendered charming by the use of many flowers with white roses and purple broom emphasizing the club colors, Mrs. Henry Diers on Tuesday, greeted the members of the Santa Ana Woman's club.

The usual opening routine was observed after which Mrs. Diers as club treasurer, gave a careful accounting of the organization's finances.

A program for the International Institute to convene in Los Angeles, November 12 and 13, was read and club delegates to the district convention to be held in Riverside November 13 to 16 were instructed to sign the peace petition which the institute would present there.

"Home Making" as the topic of Mrs. Walter Moore's paper, offered a delightful hour to the members who followed the speaker as she wittily outlined a day in grandmother's life with its ceaseless round of heavy work, and then compared it to present day home making where washing, ironing, baking and canning are all done for the housewife and even the necessary home work is simplified and done by machinery.

"Just the same," declared Mrs. Moore, "the home maker of today who disdains cooking and eats from a paper bag and a tin can, is the best patronizer of the baked sales so she hasn't lost her taste for home made foods."

Mrs. F. A. Marks, returned from the county board meeting at Laguna, gave an interesting account of that session. The club will meet again on November 20, the place to be announced later.

SANTA ANA

INDUSTRIAL TO MAKE CHEWING GUM HINTED

Possibilities of a new industry coming to Santa Ana was intimated today when it became known that the Chamber of Commerce board of directors yesterday gave its endorsement to the Unique Vending Machine company, a corporation manufacturing and selling chewing gum vending machines. The company has been formed by local men, it was said. The machines are being manufactured and installed at present, it was said. Promoters of the industry intimated that it was more than a possibility that within a few months a factory would be opened here for the manufacture of chewing gum to supply these machines. The gum used at present is secured through outside purchase and, according to officials of the company, the earnings of the company could be increased through the manufacture of the chewing gum.

W. H. Matthews and N. G. Matthews, local residents appeared before the directors yesterday and asked that body's endorsement of the vending machine in order to sell a few shares of stock. The representatives of the com-

Dismiss Battery Case Against Mother of 4

Dismissal of a charge of battery in the case of Mrs. Edna Laperruque, who was accused of having used violence in securing possession of her four children after a domestic rift had separated her from her husband, Charles Laperruque, Newport Beach cafe owner, was on file today in Justice J. B. Cox's court, where Mrs. Laperruque was supposed to have received her trial late yesterday. The trial was not held.

After the filing of a divorce suit by Laperruque, who had placed the children in the care of a nurse at Costa Mesa, Mrs. Laperruque was alleged to have visited the nurse's home and to have forcibly seized the children.

To Sentence Youth As Robber Tomorrow

One day's delay was decided upon today by Superior Judge R. Y. Williams in sentencing Donald Cornelson, Orange youth, convicted of robbing F. A. Henderson, Orange high school principal. Judgment will be pronounced at 9 a. m. tomorrow, the court ordered.

Postponement was required for the court to inspect provisions of a new state law regulating the maximum penalty for the crime involved.

pany stated that their's was not a stock selling proposition and no promotion stock was being offered.

The directors voted to endorse the plant and, in the resolution of endorsement, stated that the enterprise was worthy of the investigation of prospective investors, in that it was a local company and financed through local capital.

SEEK DIRECTED \$25,000 SUIT VERDICT

Attorneys for the Excelsior Creamery company, defendant in a \$25,125 damage suit brought by Daniel Norland and his father, C. Norland, today were arguing a motion for a directed verdict in their favor, they having failed late yesterday in an effort to secure non-suit of the action.

The Norlands ask damages on account of injuries which the boy received while boarding a truck belonging to the creamery company near Anaheim last year. The injuries resulted in amputation of one of the boy's feet.

Citing legal authorities to show that the creamery company, as an employer, was not responsible for the act of its driver in inviting the boy to ride, even though such invitation had been given as alleged, which the defense denied, Attorney Joe Crider Jr. and W. F. Menton, representing the creamery company, argued the motion for non-suit yesterday. Attorney Joseph Scott, for the Norlands, opposed it.

The defense contended that the case should not go to the jury, inasmuch as the sight of the young boy, crippled by the accident, would move the sympathies of any jury as to result in a verdict against those not responsible for the accident. Judge F. C. Drumm, however, denied the motion.

Inspired by the defense attorneys today moved for a direct verdict after having offered their evidence yesterday, to prove that the driver was not wantonly negligent in operation of the truck at the time the boy was injured, as charged by the plaintiffs.

The jury hearing the case consisted of Joseph G. Allen, H. J. Burnes, Christian Cox, C. R. Evans, Sadie Fisher, Frances Goepper, Minnie Hoffman, John La Bard, Nora Melvin, John M. Millen, D. McKeith and J. B. Stewart.

TO PRESS FOR OIL FRAUD TRUE BILLS

Indictments of using the mails in a scheme to defraud probably will be considered by the federal grand jury in Los Angeles, November 23, against alleged violators operating in the Huntington Beach, Santa Fe Springs and Signal Hill fields, it was learned here today.

Nichols and Norcop, special counsel representing Attorney-General Daugherty in the oil promotion investigation, are engaged in writing indictments to present to David V. Cahill, special assistant to the attorney-general, who is scheduled to arrive from the East November 20.

It was the intention of United States Attorney Joe Burke to press the cases in which indictments have been returned for an early hearing.

Many persons, according to Burke, invested their savings and much borrowed money after listening to the glittering stories of wealth as told by glib-tongued oil salesmen.

Court Dismisses Cases Involving Speed Traps

Making good his threat to dismiss all charges of alleged speeding in which the speed trap was used to secure evidence, Justice J. B. Cox today had dismissed two such cases against motorists arrested by the state motorcycle police.

Frank White and L. L. Kitzmiller were the defendants who were released by the local magistrate.

Why Stay Fat? You Can Reduce

The answer of most fat people is that it is too hard, too troublesome and too dangerous to force the weight down. Marmola Prescription Tablets overcome all these difficulties. They are absolutely harmless, entail no dieting or exercise, and have the added advantage of cheapness. A box is sold at one dollar by all druggists the world over, or send the price direct to the Marmola Co., 4612 Wood-Ave., Detroit, Mich. Now that you know this, you have no excuse for being fat, but can reduce steadily and easily without going through long sieges of tiresome exercise and starvation diet or fear of bad effects.

"Every Girl Should Have a Savings Account"

—Ruth Robertson

Miss Ruth Robertson of Rankin's is one of Santa Ana's most popular and well-known young ladies. Because of her wide acquaintance and experience her opinion regarding a Savings Account for girls is particularly valuable.

Miss Robertson says: "By all means, I believe every girl should have a savings account. It puts them on a more stable and independent footing. It not only provides against the rainy day but

gives them an opportunity to take up particularly good investments that demand ready cash."

"Most girls who work, I believe, could save from \$2.00 to \$5.00 a week very easily. Money once deposited should not be withdrawn except for investment or necessity. It should not be spent for clothes. The most important thing is that savings be made REGULARLY. And it is surprising how fast one's savings account grows."

BUILDING MARK IS LIKELY TO EXCEED TOTAL MADE IN 1922

Chamber Secretary Says Santa Ana Growth Is Not Boom Result

OIL YIELD VALUABLE

Black Gold Contributes to General Prosperity of Orange County

"With building permits issued in this city during the present year exceeding \$4,500,000 and practically two months remaining there is no doubt in my mind that the building total for the year will exceed \$5,000,000 by several thousand dollars," said J. C. Metzgar, secretary of the Santa Ana chamber of commerce today. "Santa Ana," he continued, "is not experiencing an unprecedented boom. This growth is natural and is the result of a combination of advantages that cannot be beat."

"First Santa Ana is situated in the heart of Orange county, one of the most prosperous counties in the entire state. The county is forging ahead to the front rank among counties of the state and it is only natural that the county seat should show the first effects of this growth. With a wealthy back country to draw from, business houses in Santa Ana have grown and extended until an enlarging of many of the principal business houses has become necessary."

"One of the richest oil fields in the west is at the door of Santa Ana, within the limits of the county. Two other large fields are just over the county line. These oil fields turn their share of business into Santa Ana."

"Santa Ana is one of the main distribution points for the citrus and walnut industry and through this industry attracts prosperity to the city. Located as it is on the main line of the Santa Fe railroad and a branch of the Southern Pacific, transportation facilities are of the best, making it possible to ship citrus products and walnuts direct to any eastern market from this city."

"If tentative plans for the development of Newport Harbor as a

S. A. In Eighth Place For State Building

According to figures compiled by H. E. Daniel, educational director for S. W. Straus and Company, bond brokers of New York, Santa Ana ranks eighth among California towns as to the amount of building permits issued during the first nine months of 1923. Permits issued up to and including the last day of September amounted to \$4,260,208, according to the report issued by that company. Fresno ranked ninth with a total of permits issued amounting to \$3,972,435. Berkeley was in sixth place with permits totaling \$5,301,079 issued for the same period.

Santa Ana building has since the issuance of that report almost reached the \$5,000,000 mark and, according to W. Decker, building inspector for the city, no doubt will pass the mark by several thousand dollars before the end of the year. Permits issued during 1923 to date total \$4,696,515. This is an increase of \$456,307 since September. This figure exceeds the total for the entire nine months for Vallejo or Eureka. The total during the first nine months of the year for Vallejo was \$421,793. The total for the same period in Eureka was \$346,400.

Barney Google Late Acquisition to Realty Board Membership

"Barney Google" is the latest acquisition to the membership of the Santa Ana Board of Realtors—at least, this is the information interpreted from a sign exposed in a window of the real estate office of J. C. Wallace, secretary of the board.

Wallace, however, declares that the sign is displayed merely to show local realtors the type of sign that will be given all dealers who procure through the agency of National Surety company, for which Wallace is the local representative, the bond required by the state.

The sign conforms to the regulations of the new state law requiring that the words "Licensed broker" must be displayed by all dealers.

BIG INCREASE IN ELECTRIC POWER USED

New Operating Plan Is Announced by Edison Company

Nothing else so indicates the growth of a community or a district as does the increased business of the electric power company providing that community with light, heat and power. As the community grows and progresses so does the business of the power company increase. If the community fails to grow, the power company is the true barometer of the decline of the community. The electric light and power company is the true barometer of the community's growth.

As an indication of the progress of Santa Ana and its environs W. L. Deimling, Santa Ana branch manager of the Southern California Edison company announced today that plans for the formation of a new operation district for that company have been completed. This district will be known as the Huntington Beach district. It will start operation about January first, with a working force of approximately fifty men.

This new district will take in all that territory west of the Huntington Beach boulevard to the Southern Pacific tracks leading from Los Alamitos to the county line and west to the ocean. This operation district will take in Seal Beach, Sunset Beach, Huntington Beach, Newport and Balboa, Costa Mesa and all intervening territory. This new district will serve approximately 3500 consumers now receiving service from the Santa Ana district.

In the past this district has been served through the Santa Ana operation district, taking in all that territory south of Anaheim to Huntington Beach and Laguna Beach. This district served approximately 17,000 consumers and will continue to serve them until the new district is opened.

In preparation of the opening of this district work has already started on the construction of a garage and store room at Huntington Beach for the Southern California Edison company. A lease has been signed by the company for a building now under construction in the business district of Huntington Beach. This structure is being erected according to the plans of the Edison company and will house the office force of the new district.

Better service in both the Santa Ana and Huntington Beach operation centers will result from the establishment of this new district, declared Mr. Deimling. The maintenance men will be in a position to give better service, due to the fact that territory to be covered by them will be decreased and men will be nearer vital operation points in each district.

TYPICAL RESIDENCES ON SANTA ANA NORTH SIDE

REALTY FLOAT FOR PARADE PREPARED

A committee of the Santa Ana Board of Realtors today virtually had completed all arrangements for the board's float to be entered in the pageant of States at Long Beach next Saturday. It was announced today by A. B. Rousseau, chairman of the committee.

Co-operating with Rousseau are J. Wallace, Freeman H. Bloodgood and John Knox.

The float will be a representation of the Santa Ana Woolen Mills, one of Santa Ana's going manufacturing enterprises, Rousseau said.

Built on a truck to be furnished by O. A. Haley, local distributor for Dodge Brothers cars, the float will display sheep, wool used in manufacture and blankets put out by the company.

At the same time, Bloodgood, as a member of the committee, announced that the float and contingent of Santa Ana persons attending the pageant, would be headed by the Santa Ana high school band.

According to Bloodgood extra cars will be needed to transfer the band. He requests that all who can furnish cars report at the courthouse by 8 o'clock.

Bloodgood urged that residents report to the Broadway side of the courthouse in time to start for Long Beach by 8 o'clock Saturday morning. He said Santa Ana banners would be supplied for all cars.

"Santa Anans joining in the caravan here will get into the line of parade and will have an excellent opportunity for viewing the pageant," said Bloodgood. "We hope that a large number of citizens will interest themselves and be present at the courthouse, so the city will make a good showing at the parade."

It is expected that all the active realtors will have their cars in line.

FEAR SEWAGE PLANT MENACE TO BEACHES

(By United Press Leased Wire) LOS ANGELES, Nov. 8.—Beach cities are evincing opposition to joining the Los Angeles sewage system plan in fear of so enlarging the city's plant that it will constitute a nuisance to the resorts, according to local engineers.

Increasing population of Los Angeles will throw an ever growing burden on the purification plant at Hyperion and sooner or later the quantity of sewage discharged will endanger the beaches, County Engineer Rockwell's report just submitted shows.

It is contended by local lawyers, however, that if the enlargement caused by joining of beach cities causes a nuisance, the state board of health will force the city to extend the outfall farther into the sea. Present plans call for disposing of sewage more than a mile from shore through an immense conduit.

Building Program Of S. A. Development Co. Is Nearing Completion

The building program of the Santa Ana Development company, important construction in the south part of the business section of town, is nearing completion, it was announced today by L. L. Shaw, a member of the company.

Pointing out that the floor space in the buildings now under construction by the company at Broadway and Second street and First and Sycamore streets is in excess of that of the new First National bank building on the southwest corner of Fourth and Main streets, Shaw said that contractors are rushing the work to completion in a manner satisfactory to the owners.

The building on the corner of First and Sycamore streets is on the south side of the Central Market building and the other construction is on the north side of the market. The latter building is two stories, extending from Broadway to Sycamore street and covering the remaining portion of the block lying between the market building and Second street.

The ground floor will be devoted to stores and the second to apartments. The north and south arcade through the market building will be extended through the new structure on the south.

VALLEY SHAKEN BY HALF MINUTE QUAKE

(By United Press Leased Wire) LOS ANGELES, Nov. 8.—Imperial valley was again visited yesterday afternoon at 3:57 by an earthquake which lasted approximately half a minute. People rushed into the streets but a careful investigation has failed to reveal any damage aside from cracked plaster in places.

The shocks seemed to travel north to south and were slightly different from Monday's in that they seemed to be intense from the start instead of gradually increasing in intensity.

At Calexico no serious damage was sustained although it is declared that the shock was stronger there and in Mexicali than in other parts of the valley. A slight fire that broke out as the result of broken wires was quickly controlled.

Health Board Worker Wins Salary Contest

SACRAMENTO, Nov. 8.—The salaries of tuberculosis field workers of the state board of health will be paid. The state board of control has withdrawn its objection to payment in the case of Linda Mistoke of Los Angeles, whose withheld salary was the basis of a suit that reached the supreme court. The control board capitulated while the case was in court.

JAIL COUNTY DRIVER. SAN FRANCISCO, Nov. 8.—David Kelly, driver of the county sheriff's van, was held by police today on charges of drunken driving. He is alleged to have struck, with the van, a woman on Polk street last night.

Types of houses being erected in Oakmont Park, Edgewood Park and North Broadway Park, subdivisions in the north part of the city.

Upper left—Home of A. J. Ralph, of the Orange County Auto club, Oakmont avenue, Oakmont park, and erected at a cost of approximately \$8000. The interior wall finish is old Italian polychrome, the same finish used in the lobby of the new Biltmore hotel in Los Angeles. According to O. L. Haisell, manager of the tract, many residents of Los Angeles have driven to Santa Ana especially to view this residence, with an idea of adopting the same style of architecture—Italian-Roman.

Upper right—Residence of Claude L. Killen, city councilman, 2425 Valencia street, Edgewood park, costing approximately \$7000. Of English architecture, the exterior is finished in stucco of rich French green color. The color combination is said to be of very recent perfection, with the Killen residence the only one in the city in which the combination has been used.

Lower—English residence of J. K. Harmon, president of the Santa Ana branch of the Pacific Southwest bank, at the corner of Santa Clara avenue and North Broadway, North Broadway park. Costing approximately \$14,000, the residence is now nearing completion, with painters applying the finishing touches to the interior.

Girl Goes to Trial In Knife Death Case

LOS ANGELES, Nov. 8.—Grace Wall, 19, went on trial today in Judge Carlos Hardy's court on a charge of murdering Gus Johnson. She is charged with stabbing him to death with a butcher knife. The killing took place in Johnson's apartment.

The police were summoned by a frantic woman's voice over the telephone pleading "Come quick—I have killed a man." They arrived to find the girl alone with the body. The girl alleges self defense, and says he tried to attack her, after she and two Spanish girls had come to the apartment with Johnson to get a few drinks.

MUSICAL BODY IN CANVASS PROJECT

The Santa Ana Musical association will meet in a few days to plan a city canvass for pledges to purchase season tickets for an entertainment course proposed this winter by Harry Warner, president, declared today.

Warne said the association would have to have pledges totaling at least \$4000 before it would sign up for the high class musical numbers scheduled for the course.

Canvassing plans contemplate division of the city into districts. Members of the association would be assigned to districts for the pledge canvass. Warne said that a payment would not be required, and that pledges would not be binding unless the full amount required as a guarantee was subscribed.

If a dog barks at night in Japan the owner is arrested and sentenced to work for a fixed time for the neighbor whose slumbers may have been disturbed.

EXPERT SCHEDULED FOR S. A. AD CLUB

The bi-monthly meeting of the Santa Ana Ad club will be held tomorrow noon at St. Ann's Inn. W. H. Hanley, chairman of the day, has arranged a program which will have for the chief topic "What Organized Advertising Is Doing for the Pacific Coast."

Elliott C. Hensel will be the principal speaker. Hensel is a director of the Los Angeles Ad club. Before coming to California, he was president of the St. Paul Ad club for two years. The local club was able to secure Hensel through the cooperation of the Los Angeles club, Hanley said.

R. L. Bisby will be another speaker at tomorrow's meeting. Bisby, at one time president of the Pacific Coast Advertising Clubs, is declared to be a close student of advertising. The entertainment feature of the meeting will be supplied by the Chandler trio, composed of Miss Elsie Fluor, Clayton Kaufman and J. W. Beach.

REPORT STINNES, JR. IN U. S. OIL DEAL

OAKLAND, Nov. 8.—Reports that Hugo Stinnes jr., son of Germany's financial king, is now en route from Oakland to Chicago to confer with Harry Sinclair, oil magnate, regarding possible sale of oil properties, were in circulation here today.

The reports followed word that Stinnes, while here on a quiet visit last week, had invested heavily in Oakland real estate.

The reports were without confirmation.

Army Man Missing 2 Months After Wedding

SAN FRANCISCO, Nov. 8.—Search for Capt. Thomas J. Ross, U. S. A., whose home is in Washington, D. C., was started today by Mrs. Ross, who is a bride of two months.

Ross, his wife reported, disappeared Tuesday just before he was to have taken a steamer for Alaska. His wife fears foul play.

Dinner served every evening at the Cat's Whiskers, Main at 6th.

HOME SEEKERS DEMONSTRATE POPULARITY OF LOTS ON NORTH SIDE

Residence Construction In Three Subdivisions Shows Popularity of Section

START IMPROVEMENT

Water Pipe Delay Halts Work But Does Not Hinder Sales

High class residence construction in three subdivisions opened in the north part of the city in the past few months has demonstrated popularity of north side locations with men and women seeking first class surroundings, in the opinion of men who have been watching developments in the Oakmont Park, North Broadway Park and Edgewood Park subdivisions.

Pointing to the elevation of the north side, the high type of cultivation and the approach through beautiful settings, it was declared today by a local realtor that the three subdivisions are the nucleus around which will center greater development in the section embracing many acres of high-priced citrus and walnut lands.

Despite delay in the installation of contemplated improvements by reason of inability to secure water pipe necessary to make water available, sales have been satisfactory. Building in this section is progressing as rapidly as could be expected under the circumstances.

Leading the way in north side subdivisions, as he did in the south side, A. B. Rousseau opened Edgewood park, on the southwest corner of Edgewood road and Santiago street, with a plot of forty-nine lots. The tract was opened nine months ago. Every lot in the subdivision was sold in a short time, according to the subdivider, and today several residences of various types, and ranging in cost from \$7000 to \$12,000 have been erected on the tract.

According to Rousseau, a number of the lot owners have plans under way for building.

Prominent Residents. Among those who are now occupying homes on the tract are Claude L. Killen, member of the city council; Harold Yost, manager of the West End theater; George Miles of the Killen-Miller Motor company; P. B. Kellogg, district manager for the Shell Oil company; E. H. Granger, of the Granger Electric company; John Wilcox, Miss Cora N. Kurlay and Dr. D. E. Brockett.

"Wealthy people are coming to Santa Ana every day seeking high class residence locations," said Rousseau. "I am satisfied that the north end will be the point to which they will gravitate, with the result that development in that section in the future will be more rapid than it has in the past. High priced lands make the initial costs of lots high, which means that they will be available only to those who are comfortably situated financially, and this in turn, means the very best type of residence construction."

"Lots in Santa Ana will continue to sell as long as the eastern people continue to seek the comforts offered by the equable climate of this section—and that means forever."

The publicity campaign in Los Angeles newspapers conducted by the Greater Santa Ana club is having its influence in bringing to Santa Ana a fine class of home-seekers."

Oakmont Park Progress. With construction under way on several beautiful homes and paying in progress, Oakmont Park, on the northeast corner of Santa Clara avenue and Santiago street, was a busy place today.

This subdivision was opened approximately six months ago by the Santora Land company, with Oliver Haisell as tract manager and J. C. Wallace as sales manager.

With the management more or less dictating the type of construction for the purpose of developing variety in building, residences already constructed evidence that purchasers on the tract

(Continued on Page 9.)

K K K
KELLY KNOCKS KINKS

How many of you have not slipped, fallen, over exerted yourself, lifted something too heavy or a dozen and one other things and as a result gotten what is commonly called a kink in the spine? This kink was due to a vertebrae (bone of the spine) being slipped from its normal position. True the kink left but it also left enough pressure on the nerve emitting at that particular place to cause some kind of trouble or sickness later on. I remove these kinks also the nerve pressure left from them and you get well. Simple isn't it? I am doing this every day as hundreds of Santa Ana people will gladly tell you.

Auto Plunges Over Bank; Two Injured

SAN JOSE, Nov. 8.—Two persons were injured when, in rounding a curve on the Mount Hamilton road near here, their automobile left the roadway and plunged 300 feet down the mountain side. The injured are Miss Alice Taylor, Oakland; scalp laceration; J. H. Hoffman, Oakland; severe bruises and contusions. The occupants of the car were extricated from the wrecked machine by passing motorists and taken to the San Jose hospital, where it is said their condition is not serious. Miss Taylor is said to have been driving the automobile and, misjudging the speed of the car on the steep downgrade,

COLLEGE ENROLLMENT GAINS. IOWA CITY, Nov. 8.—Total registration at the University of Iowa is 7250, a gain of about 500 over that of the same time last year.

was unable to keep on the road on a sharp curve. Hoffman is a member of the Oakland fire department.

ALLEGES BRAIN REALLY SEES AS EYE

CLEVELAND, Nov. 8.—We see with our brains as much as with our eyes, and the fundamental problem of how we see is as much psychological as physical, Dr. Leonard T. Troland of Harvard university, told members of the Optical Society of America at the annual meeting of the society.

"Vision may be separated into a series of events," Dr. Troland said, "the first of which lies outside the observer and consists in the emission and reflection of light by objects. Next is the stimulation of the retina by the light which has passed through the pupil of the eye. This is physiological and the process continues in the currents which pass up the optic nerves to the brain. The final phase is psychological, the appearance of the object as a perception in the observer's consciousness."

"These processes in the living nervous system are even more important than those which precede them and the science of the optics of the nervous system deals with the manner in which the images which are formed on the two retinas are represented in the complex nerve currents that lead to the higher brain centers."

"It is now possible to work out experimentally the character of the image at different points from retina to brain and how the nerve currents generated in over a hundred million sensitive receiving cells in each retina surface are condensed into the half million conducting fibres of each optic nerve."

"At the crossing point of these nerves the currents from the left hand sides of both retinas are grouped together and passed on to the left hand side of the brain, while those from the right hand retinal areas go to the right hand half of the brain. The two half visual fields are respectively mapped out in a distorted but determinate representation of the two retinal images, and thus of the object before the eyes."

Mining Operations Increase In Brazil

RIO DE JANEIRO, Nov. 8.—Mining operations are steadily increasing in development every year in Brazil, chiefly in the state of Minas Geraes, which is one of the richest regions of the world in gold, iron ore, manganese and diamonds. In 1920 Brazilian exports of mineral products amounted to 277,044,130 kilograms. Diamonds to the value of about \$1,000,000 were exported during the course of the year. The gold and silver output does not figure in the mineral export statistics for the past few years, as the entire production of the mines has been taken under contract by the federal government.

Building Mark Is Likely to Exceed Total Made In '22

(Continued from Page 7)

commercial port become realities it is not unreasonable to believe that Santa Ana will become one of the business centers of the Pacific Coast. The harbor, when development is complete, will link Santa Ana and the rest of Orange county with the large industrial centers of international trade for industries located here.

"Several manufacturing plants are beginning to realize the benefits to be derived from the operation of factories here. They realize that Santa Ana's equitable climate, ideal working conditions, bringing satisfaction to workers, and shipping facilities such as are provided in this city all combine to make this city an ideal industrial center."

"The development of an industrial center here, however, will not detract from Santa Ana's attractiveness as a home city. Civic pride will prevent that. The industrial section is and always will be a section apart from the rest of the city. "No place in Southern California will a community be found that takes more pride in its homes. There is a reason for this pride. The owners of homes in Santa Ana are ardent Santa Ana 'boosters' and realize that by maintaining beautiful, well kept residences that they are doing one of the first things required to keep Santa Ana before the world as a home city."

DITCH DIGGER MAIMS COON RAPIDS, Nov. 8.—J. C. Facret was caught in the machinery of a ditch-digging dredger turning so rapidly that it is estimated he was whirled through 400 revolutions before the machine could be stopped. He was frightfully injured.

Dark Teeth Bleached In Three Minutes

You have always longed for flashing white teeth. And now, at last, you can have them—easily, quickly and safely! For scientists have discovered a marvelous new liquid, which in just three minutes, bleaches the most dingy discolorations from the teeth, leaving them clear, sparkling white and lustrous. Just one application leaves the teeth whiter than when secured by a dentist! This new liquid is called Bleachodent. Simply brush teeth with a few drops. All unsightly surface stains disappear as if by magic and the teeth instantly take on a dazzling whiteness and lustre. Bleachodent is harmless—cannot possibly affect the enamel. Especially recommended by members of dental profession. Get Bleachodent today for a few cents. Sold by all leading drug stores, such as White Cross Drug Co.

SOUTH MAIN STREET DISTRICT

is improving faster than any other section in or near Santa Ana.

SANTA ANA

is rapidly outgrowing its present limits, and these new subdivisions are making it possible for the newcomers to find homes in this growing community.

SOUTH PARK HOMESITES

has just finished PAVING IT'S STREETS with FIVE - INCH PAVING.

Buyers of lots in this TRACT have the advantage of SIDEWALKS, CURBS, and PAVING ALL IN NOW.

Early investors are taking profits on resales. One INVESTOR, within a period of THIRTY days has made a PROFIT of more than EIGHT HUNDRED DOLLARS on an investment of TWO THOUSAND EIGHTY DOLLARS.

The THIRD lot sold in the TRACT has been resold the second time with a PROFIT of TWO HUNDRED and FIFTY Dollars over the original price.

We will advance all prices in the TRACT from fifty to one hundred dollars within the next thirty days.

SOUTH PARK HOMESITES

HOME SEEKERS LIKE NORTH SECTION

(Continued from Page 7)

must erect high class homes and in different types of architecture.

Among those who have homes on the tract are Stanley Reinhaus, of the law firm of Scarborough, Forgy and Reinhaus; A. J. Ralph, of the Orange County Automobile club; Charles Ocan, of The Register advertising staff; Andy Anderson, of the local agency of the National Cash Register company; Noel Berry, J. Richards, Raymond Ross and C. H. McGee.

Stating the improvements planned for the tract had been delayed by the shortage in water pipe, Halsell said today that all public utilities had completed installation of their services and that the improvements now would be rushed to completion.

Paving is under way on Fairmont avenue and will be completed in the next two or three days, it is expected. Paving of the east side of Oakmont avenue will follow, as water installations have been completed. The east side of this street was paved some time ago and improvement of the west side was held up for water pipe installation.

Equipment for ornamental lights was delivered to the tract today and will be placed in position at once. Oakmont avenue, with a twelve-foot parkway in the center is one of the attractive streets of the subdivision. A set-back line of thirty-five feet has been established for both sides of the street, insuring a uniform location of residences. The set-back line on Fairmont avenue is twenty-five feet.

Pointing out that the tract is proving particularly attractive to young professional and business men of the city, Halsell said that there had been no active selling campaign because it was the desire of the management to first complete contemplated street improvements. He said that as soon as the improvements are completed a selling campaign would be inaugurated. He said, however, that a considerable portion of the ninety lots had passed to new owners, with many of them making preparations for starting new homes in the immediate future.

North Broadway Park.

North Broadway park, the latest of the large subdivisions in the north end, comprises approximately fifty acres. The same situation as to improvements on this tract has obtained as with the Oakmont park tract.

According to Freeman H. Bloodgood, who, with John Newcomer, is handling sales on the tract, sidewalks, curbs, and sewer are in on the first unit, which embraces the ten-acre tract formerly owned by Walter Fine, lying at the corner of Broadway and Santa Clara avenue. Grading has been completed on Bonnie Brea street and gas, electric lights and water will be installed as soon as possible, Bloodgood said.

Declaring that this is the prettiest laid-out subdivision ever offered to Santa Ana lot purchasers, Bloodgood pointed to the broad, curving streets as offering possibilities for artistic beautification of yards. Broadway Park Boulevard, an eighty foot avenue, runs from the southeast corner of the Fine ten-acre tract, northwest to the side of the creek to a connection with Flower street, offering a north outlet from the north end of Broadway to Chapman street, Orange. It is predicted that when this avenue is paved and opened it will be traveled extensively by persons driving to or from the north, relieving present traffic congestion on North Main street.

Three houses now are under construction. The \$14,000 residence of J. K. Hermon, president of the Santa Ana branch of the Pacific South-west Trust and Savings bank, is nearing completion, with painters now engaged in finishing work on the interior.

On Bonnie Brea street, J. H. Henderson and H. W. Nixon now have under construction residences that will cost \$6500 each.

According to Bloodgood, H. E. Nelson has bought lot 228 and Arthur B. Smith lot 229, both on Bonnie Brea. Each will build in the immediate future, Bloodgood says.

Others who have purchased lots in the first unit include Mrs. M. Stanley, lot 230; E. C. Nelson, lot 152, with plans being developed for a \$12,000 residence; Leonard G. Swales, president of the Santa Ana Chamber of Commerce, lot 223; M. Riser, formerly of the Spurgeon Furniture company, lot 234; and R. Fraser, contractor, lot 224. Bloodgood says Fraser will erect a \$7000 dwelling at once.

Denies Cattle Excited Should Blood Be Seen

BERKELEY, Calif., Nov. 8.—The old belief that cattle are excited by the sight or the smell of blood has been dealt a severe blow by Prof. G. M. Stratton of the University of California. He has poured out buckets of blood before bulls, cows, and calves without the animals showing more than mild curiosity. Cattle showed more interest in the blood of their own kind than in that of horses but in no case was there any pawing of the ground or bellowing.

Dr. Stratton attributes any excitement of cattle when one of the herd is bleeding to the cries of pain and the conduct of the wounded animal. A year or so ago he demonstrated by a similar series of experiments that red has no particular exciting effect upon bulls.

Thief Ransacks Home, Gets 322 In Jewels

SAN FRANCISCO, Nov. 8.—William Davis, in the employ of the Standard Oil company, returned to his home at 1808 Octavia street to hear the sound of running feet and to find that the house had been ransacked. Jewelry and other articles valued at \$322 were missing. Entrance had been gained by the burglar through the front door, the lock of which he had jammed. The police searched the neighborhood, but found no trace of the thief.

LIBRARY GAINS REFLECT VAST S. A. GROWTH

Fifty per cent more volumes were distributed from the city library here during the month of October, last, than during the corresponding month of last year, it was announced today by Miss Jeanette McFadden, librarian.

"These startling figures cannot mean that the population of Santa Ana has increased at such a rate during the past year," Miss McFadden added, "as we have figures from other sources that would disprove such a contention. "But these plain numerals are indicative of Santa Ana's tremendous population growth. If we may proclaim that Santa Anans are taking greater interest in reading and admit the accepted fact of a greater urban center within our confines, we can account for the library's increased circulation."

Crowding Continued.

To be exact, 15,578 books circulated during October, 1923, while but 10,457 were taken from the library in the corresponding month of 1922, Miss McFadden revealed. The increased circulation of 5,121 books, or 50 per cent more than last year, carried with it other significant matters to her, the librarian declared.

"I am anxious to reveal this increase in our work to point out to any who may be skeptical in Santa Ana," she continued. "We maintained we were crowded to the point of extension needs in October, 1922, when our circulation was more than 10,000 volumes."

"But today we are struggling, as it were, to serve an ever-increasing public with our same building. It requires but little effort to be convinced that something must be done in the way of building if we are to continue with a 15,000 circulation. Two, we may expect this latter figure to be even larger with Santa Ana absorbing its remarkable population influx. Certainly we have observed no let-up during these first days of November."

Miss McFadden pointed out that although the library had half again as many readers at this time as compared with last fall, but few changes had been made in the working personnel.

A Mating in the Wilds

By Ottwell Binns

is a thrilling novel of the ever-fascinating north—

A gripping story of adventure and of wooing in the wilderness; of narrowly averted death by forest fire and rushing stream; of dog-team dash and snowshoe trail; of a crafty villain's attempt against the life of a hero he has deeply wronged and has good cause to fear; of his plot to steal from the hero the girl whose love the latter has won; of the hero's desperate fight with lawless Indians in the villain's pay; of trapper and half-breed and "mountie"—and always of a beautiful woman's devotion to the red-blooded hero of the tale.

Building and Loan Associations Are Under State Supervision—the Same As Savings Banks

THE WISE INVESTOR

looks for safety, and convenience as well as a good rate of interest when placing his money. These elements are to be found in our two investments. Money loaned to us is turned right back into Orange county, and is used to help people buy or build homes. Your investment, therefore, gives work to carpenters, masons and painters and make the ownership of a home a possibility.

6% MONEY 7% MONEY

We pay 6% from date of receiving sums of money in multiples of \$100.00 and will receive it any day in the year. We pay 7% on monthly installment accounts which may be started in April, July, October and January. Both investments are safe and have no element of speculation. All funds invested with us are loaned out on improved properties in Santa Ana and Orange County.

READY MONEY

Ready Money enables you to grab opportunities when they arise. Ready Money will tide you over temporary reverses. You will never have Ready Money unless you save. Start saving now, and place your savings where they are absolutely safe and will bring you the highest dividends. The institution that fits that description is this 30-year-old building and loan association.

SAVINGS ACCOUNTS

Every man or woman who starts a savings account with this association can justly feel that he or she is helping to supply the need for money to buy or build new homes. Our Systematic Savings Plan is paying 7% compounded monthly and one can start at anytime by paying back to the July payment. Decide the amount that you can set aside each month and you will be very agreeably surprised in a few years to find how rapidly your savings have increased. We also issue Term Investments Notes for 3 years at 6%, with coupons to be detached each 6 months.

Stauffer Announces Sale of Apartment

A. M. Stauffer has sold his apartments on the northeast corner of Walnut street and Van Ness avenue to J. G. Seargeant, it was announced today by W. B. Martin, real estate broker. The consideration, it is reported, was \$12,000.

THREE FOR MAYOR.
DES MOINES, Nov. 8.—Following the announcement of John MacVicar, commissioner of public safety, that he would be a candidate for mayor next spring, Carl M. Garver, present mayor, announced today that he would run again and P. P. Barton, mayor two years ago, tossed his hat into the ring.

Now you can wash in the KITCHEN if you like —

STUDY this arrangement plan for a modern kitchen—it was laid out by experts.

Note that it provides a space for the electric washing machine on the left of the sink.

This is ample for the Laund-Dry-Ette because with this machine no extra tubs (stationary or portable) are required. Water is supplied to the Laund-Dry-Ette from special faucets over the sink, and is drained to the sink or through a regular waste pipe similar to refrigerator drain.

Note: The washing, rinsing and bluing are all done in the Laund-Dry-Ette and as you have no wringer you can do a wash in very little space.

This famous wringerless washing machine has improved washing methods greatly.

Instead of feeding the clothes to a wringer which amashes and pulls off buttons, fasteners, etc., you turn a switch and the Laund-Dry-Ette whirles a whole tubful wringer dry in one minute without a wringer—and you never put your hands into the water.

Aged Adventurer Attempts Suicide

SAN FRANCISCO, Nov. 8.—Carlos Rivers, soldier of fortune, adventurer for seventy-four years, isn't quite ready yet for the greatest adventure of all.

He thought he was. It was the fifth anniversary of the death of his wife while nursing overseas.

Uncle Sam had turned down his application to serve again in the American army intelligence service, from which he had retired with the rank of major after the World war; there didn't seem to be much left for a man like him who had reached the age of 74—nothing but the great adventure.

So, at the home of his friend, Charles Nelson of 2571 Foothill boulevard, Oakland, he swallowed poison. At the Oakland emergency hospital they wouldn't let him die, and he's getting well again.

Dinner served every evening at the Cat's Whiskers, Main at 6th.

Walnut shaking poles—Hawley's.

THE high, thick, sharp-edged blocks of the Good-year All-Weather Tread keep the maximum traction and safety under your car every foot of the way. They resist sideslip and skidding, help make the most of fuel, and protect your motor from the strain of stalling or spinning wheels.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cords with the beveled All-Weather Tread and back them up with standard Goodyear Service.

Rush Oil Drilling In Argentine Field

BUENOS AIRES, Nov. 8.—The director-general of oil fields of Argentina has announced that forty-seven new oil wells will be drilled in the Comodoro Rivadavia field this year and seventy-five new borings will be made next year. It is planned by 1927 to have 650 producing wells on the field, turning out 2,000,000 cubic meters of oil annually.

SKYSCRAPER TO GO UP, CLAIMS 'BUBBLE' MAN

Santa Ana's "skyscraper bubble" may not be a bubble after all.

Believed to have toppled to earth when its promoter, Edward J. Koerner, became enmeshed with the law, the ten-story building recently proposed in Santa Ana began tentatively to rear its girders and walls aloft again today.

All of which figures of speech relate to the solemn declaration of Koerner, himself, made when he finally shook himself loose from the law's coils, consisting of criminal charges in connection with the skyscraper project, when the case was dismissed.

Pledge Told Court
"If it's the last thing I ever do, I'm going ahead and put up that ten-story building," said Koerner, just before walking free from the courtroom here late yesterday, at the conclusion of his second trial.

Koerner made the statement to Superior Judge F. C. Drumm, who presided over both of his trials on charges that he defrauded M. Eugene Durfee, architect, of \$1375 in connection with the lease on a local business corner, where the proposed skyscraper was to be erected.

The significant feature of Koerner's announcement that he would proceed with his originally announced plan of building the skyscraper was, in the opinion of those who heard his pledge, that it was voluntary and in no wise necessary to gain any advantages or protection for him in his legal difficulties.

Jury Out 19 Hours
His liberty had already been assured, the charges against him having been dismissed. Koerner made the pledge as he was thanking Judge Drumm for granting the district attorney's motion to dismiss the charge.

Dismissal immediately followed discharge of the jury, which failed to agree on a verdict after deliberating nearly nineteen hours. The jury was said to have been divided seven to five in favor of conviction when discharged. Two trials having failed to produce a verdict in Koerner's case, the district attorney's office decided to dismiss the charge.

SCHOOL PAPERS SEND EDITORS TO MEETING

Journalism, student editors and business managers of Orange county high school papers and annual publications, who will attend the conference of high school newspaper writers tomorrow at Huntington Park, were enthusiastically looking forward today to the benefits which they hope to derive from the meeting.

T. E. Stephenson, managing editor of The Register, will be one of the speakers and it is expected that he will devote considerable time to the explanation of the manner in which The Junior Register, the students' paper printed every Wednesday in connection with The Register, was launched this year. Merle Hunsong and Charles Crawford of The Register staff will also attend.

Miss Mae Murphy, journalism teacher, Santa Ana polytechnic high school will lead the local delegation. Santa Ana high school papers will be represented by Alice Richards, Constance Crookshank, Clair Hansen, Theodore Jesse and Joseph Lysia.

Tustin union high school will send Miss Emma B. Hield, journalism teacher, and Florence Boosey, Mary Dunstan and Thelma Nordstrom.

San Juan Capistrano union high school, the smallest high school in the county, has arranged for Miss Eakin, teacher, Melvin Rosenbaum, Bessie Carrillo, Elva McHenry, to attend the Huntington Park meeting.

Anaheim, under the chaperonage of Bert F. Steelhead, journalism teacher, will be represented by Constance Williams, William Cottrill, Lloyd Ross.

Mrs. Julia Hazelton, journalism teacher at Huntington Beach union high school, and Miss Bertha Lancaster, journalism teacher at Fullerton union high school will attend with student delegates. It was thought, but their names could not be secured.

The Junior Register was instrumental in securing the strong Orange county delegation.

Auto Sideswipes Truck, One Dead

SAN JOSE, Nov. 8.—One line-man of the Pacific Gas and Electric company is dead and the foreman of the same gang may die as a result of injuries they received when their truck was sideswiped by a touring car on the Saratoga road between this city and Saratoga, and disappeared in the darkness.

The dead are C. W. Bacon, line-man, Douglas apartments, San Jose.

The injured are J. J. Rector, foreman, San Jose.

Both men were taken to the O'Connor sanatorium here, where Bacon died of a fractured skull, a broken leg and internal injuries. According to Mark Hopkins, Pacific Gas and Electric company physician, Rector's death is momentarily expected. Bacon was unmarried, while Rector has a wife and two children.

Sheriff George W. Lyle stated that he was in possession of reliable clues as to the identity of the occupants.

3 Killed, Two Hurt When Auto Upsets

MERCED, Nov. 8.—Three persons were killed and two seriously injured when the automobile in which they were returning from a dance at Snelling, near here, plunged off the road at a sharp angle and turned over twice, about one mile south of Snelling.

The dead are Miss Lucille Snell, 16, Merced; W. E. Nicholson, 24, Atwater; Paul Yearout, 22, Chowchilla.

The injured are Earl Stother, 23, Planada; internal injuries; Irving Boyer, Chowchilla; broken jaw. Stother was driving the machine, which was a roadster.

The bodies of Nicholson and Yearout were crushed and mutilated. Snell lived a short time after the accident. Stother and Boyer were brought to a hospital here. Their recovery is uncertain.

A passerby righted the automobile after the crash and brought it into Merced under its own power.

FRANK MUSSELMAN LUMBER CO.

1900-1912 West 5th St.

Santa Ana, Calif., Nov. 7, 1923

Mr. and Mrs. Home Lover,
Any Street,
Santa Ana, California.

Dear Sir and Madam:—

As you are contemplating at some time owning a home of your own in this community, we are taking this liberty to write you to explain our "home building" plan in the hopes that we may be of some benefit and service to you in achieving that which you have desired and have planned for some time past.

We are herewith placing at your disposition our entire home building service, which does not only include the actual furnishing of all building materials upon the ground, but the superintending of the entire work, from the very beginning until you are actually ready to move into your home.

By entire work, we mean "everything". We take all responsibility and worry off your shoulders, and all you have to do is to watch your building go up day by day. "Everything" means of course the important element of "financing". The day has passed when it is necessary to have sufficient money in the bank with which to construct your home. Your home, like more than half of the homes which have been built in Santa Ana during the past year, can be financed, and it is only necessary for you to have a very small part of the actual money needed in the construction of your home, or to have a clear lot.

We have made connections whereby we can obtain for you at 7% interest, all the money you will need to build your home. This money which we are able to obtain for you through our various connections can be paid back at the rate of \$12.83 per month, for every thousand dollars borrowed. The payment of \$12.83 per month includes all interest charges. If you will only let us help you we will show you that it is cheaper to own your own home and pay for it upon our monthly installment plan, than it is to rent the place you are living in.

Come in and see us and discuss your home building plans with us.
Trusting that we will be able to serve you in building your home, we beg to remain,

Yours very truly,
FRANK MUSSELMAN LUMBER CO.

CALL HOSPITAL MEET TO PLAN CAMPAIGN

Final organization of teams and completion of plans for the hospital fund campaign here will be made at a meeting of workers at the garage of O. A. Haley, Wednesday evening of next week, it was announced by Attorney Clara Cushman, secretary of the Santa Ana Valley Hospital association. At this meeting she said the date for starting the campaign probably would be selected. A meeting of teams was held last night.

Recounting a recent visit to the Los Angeles general hospital, a prominent Santa Ana physician said today that he found there a new and fully equipped unit for the care of patients with contagious diseases.

"As I looked over the building I tried to visualize something similar that we might work into our building program here," said the physician.

"The arrangement of the hospital, divided as it is into four separate units, each unit having a laboratory for the doctors; a separate and complete kitchen for preparation of special diets and a wonderful up-to-date call system, made me wish we could have just one of these divisions. The original bid on the contagious unit was approximately \$600,000, but I understand the final cost was a little more."

"If the county of Los Angeles can afford to put more than half a million dollars into just one part of a complete hospital, can we not, as a community, afford to build a complete one at less than half that amount?"

Sleep Walker Falls From Hotel Window

SAN FRANCISCO, Nov. 8.—While walking in his sleep John Wickholm, engineer, 53, stepped out the second-story window of his room in a hotel at 452 Folsom street. He was removed to the Harbor emergency hospital with a fractured skull.

FIREMAN OF 68 HERE ON TOUR OF NATION

Although he is 68 years old and has long since discarded the red shirt and the metal helmet, Walter Wright, an old-time fireman of Louisville, Ky., still is able to do 25 miles a day and has made three walking tours across the continent.

"I am on my way east," Wright said here today, after his arrival from Los Angeles, "and I hope to reach Florida in plenty of time for a winter sojourn. Last Thanksgiving I ate my turkey in Miami, Fla., and I am heading that way again. I left Portland, Me., June 12, 1923, and walked to Chicago. I then came to Denver, Albuquerque, El Paso, Santa Fe, and across the desert to California."

On Third Trip. The old fire-fighter said, he averaged about 20 miles a day. Good highways, however, offer him better opportunities, and he is able, in good weather, to clip off 25 miles a day.

"This is my third trip across the continent," Wright said, "and I am enjoying it immensely."

"I find men and women very good wherever I go. There are really very few bad men and bad women. I have walked 17,000 miles and have only been roughly received on three or four occasions. And even those people were to be pitied. They were of the unthinking kind. Therefore, they were not great in heart."

"Between El Paso and Los Angeles I rode only 140 miles. A Los Angeles man gave me a ride from Indio. Motorists on the desert are not apt to pick you up. They are suspicious of everything and everybody—but you can't blame them. It's the desert."

Gets Signatures.

Wright, who carries notebooks containing the signatures of mayors, newspapermen, firemen, police chiefs and leading citizens of the larger cities of the United States, is mild and kindly and has a gentle philosophy acquired from wide experience with men. He recently visited his old home in Kentucky for the first time in forty-seven years.

From Santa Ana, Wright will walk to San Diego. Leaving the southern city he will proceed to Phoenix, Tucson and El Paso.

Wright's coat lapels, well-lined with pins, attest his firm belief in the luck gods.

"Always pick up a pin," he said, in parting with the Santa Ana firemen. "That's always good luck. You have a fine fire department here, but Santa Ana is growing, and you need more men and better apparatus."

RESUME \$7000 SUIT TRIAL OF LAWYERS

James L. Allen and James L. Davis, Santa Ana attorneys, today resumed their court battle here to collect a fee of \$7000 from William Duncan, Tustin rancher.

The plaintiff lawyers, aided by the legal firm of Head, Rutan and Soovel, were completing their side of the case when superior court, opened today for the second day of the trial. Before noon the plaintiff's case was rested and Attorney Ben E. Tarver, representing Duncan, took up the defense.

Allen and Davis rest their claim to the fee upon an alleged court judgment of \$21,000, which they claim to have secured for Duncan while representing him in a previous superior court suit. A Long Beach man who was alleged to have defrauded Duncan by trading him land in Minnesota for Duncan's property at Tustin, was defendant.

According to Allen and Davis, they were entitled, by agreement with Duncan, to one-third of whatever judgment was secured.

Judge R. Y. Williams is presiding over the present trial.

HANGING VERDICT IS RETURNED BY JURY

Charles F. Kneen, aged about 65, "met death by strangulation" by hanging himself, with suicidal intent, was the verdict of a coroner's jury which this morning investigated the circumstances surrounding the finding of Kneen's body in the garage at his home, 715 Minter street, this city, yesterday.

Beside the widow, Officers Barnhill and Jaynes, who were called when the tragic action was discovered, testified before the jury, which was composed of C. R. Ward, L. E. Baker, C. W. Fowler, S. A. Sheeley, W. R. George and N. I. Rice.

The jury made no effort to determine possible causation for the self-destruction. Apparently in good health, Kneen had no worries, so far as was known, and his financial state was satisfactory, a friend of the family stated.

Sorrowless Tears In Bastille Gas Attack

SAN FRANCISCO, Nov. 8.—An atmosphere of sorrow hung about the Hall of Justice like a chilling fog.

Prisoners in their cells passed dingy sleeves over tear-dimmed eyes. Husky "harness bulls," callous to the tenderer things of life, broke down and cried. Stern officials, to whom the law and its execution are paramount to the condemnation of human failings, could not suppress their tears.

A bunch of tear gas bombs had begun to leak in the office of Captain of Detectives Duncan Mathe-

Plan Exercises For 4 Nurses Graduating From County Hospital

Exercises graduating four nurses from the Orange county hospital school will be held at 8 p. m., Thursday, November 22. It was announced here today by Dr. H. E. Zaiser, superintendent of the hospital.

The four completing the course are Misses Mildred Smith, Leonora O'Neill, Thelma Latham and Margaret Nilson.

Pointing out that the school for nurses was opened March 15, 1915, Dr. Zaiser said that with the four to graduate, the school will have graduated thirteen nurses.

Diplomas will be presented by Dr. Zaiser and the principal address to the graduates probably will be made by some minister of the county. The program is being developed, it was stated by Dr. Zaiser.

Declaring that the school has the best of facilities and instructors, the superintendent said there would be room for six more students following the graduation. "Girls of 15 years or older who have had at least one year in high school, and who can furnish references as to character, will be accepted," concluded Dr. Zaiser.

ARTISTS OF STUDIO COLONY WILL PLAY

Artists from the Greenleaf Building studio colony will present tonight's KFAW program from 6:30 to 7:30 o'clock.

Miss Lola Flagg, Miss Mabel Woodruff and Mrs. Hulda Dietz are among the artists who will broadcast from the Register studio.

This program will be the first of a series to be given by talent from the Greenleaf building studios. Fifteen of Santa Ana's leading musicians have their studios in this building and each will have been heard when the series has been completed.

ASK NURSES OF WORLD WAR TO PARADE

Declaring there is a large number of World war nurses in Orange county who should be represented, Mrs. T. L. Chapline, president of the American Legion at Orange, today issued an appeal to such nurses to organize in the city of their residence, decorate an automobile and appear in the Armistice day parade.

At the same time she announced that the group from each city should provide a banner indicating the city in which they live.

Stating that she had been endeavoring to get the names of the nurses, Mrs. Chapline said that she had the names and addresses of four in Santa Ana, seven in Anaheim and one in Fullerton.

Those from Santa Ana are Mrs. Martha Crouse, 608 West Sixth street; Mrs. Irene Clary, 413 Mortimer; Mrs. Jefferson Cleveland, 610 North Ross, and Miss Anna Lieberman, 612 French.

Pointing out that in the parade formation the nurses would follow the Legion posts in the first division, Mrs. Chapline said that automobiles bearing Santa Ana nurses should be driven over Tustin avenue to the corner of East Chapman street, where the first division will form.

Aides will be present to direct the position of the Santa Ana entry or entries, Mrs. Chapline said.

Calling attention to the fact that it is desired that all war nurses in the county appear in the parade, and that it is not a requirement that they be affiliated with an auxiliary, the president of the Orange auxiliary said that, if possible, nurses should wear their uniforms.

Should further information be desired, Mrs. Chapline can be reached by phone 714-W, Orange, she stated.

Make Wash Day A Happy Day

Men! Think of the number of hours your wife spends in her (office) kitchen, and realize how tiresome it must be. It is your duty to assist her by installing modern conveniences. A set of laundry trays will be helpful.

SANTA ANA CALIFORNIA, THURSDAY, NOVEMBER 8, 1923

SECTION THREE

Crippled Poly Eleven to Oppose Pasadena

3 STARS OUT OF CONTEST TOMORROW

Golden, Cook Expected to Start In S. A. Backfield Against Crown City

Santa Ana high school's game little football squad, undismayed by the breaks which have gone the other way all season, and deprived of the services of Don Williams and "Chappie" Townsend, two of its stars, will match strength at Pasadena tomorrow afternoon in a Tri-County league contest with the Pasadena high school eleven.

Coach Ed Covington's charges wound up their week's practice yesterday afternoon. They were to be let off this afternoon with a chalk talk in the training quarters and a half hour of easy signal drill.

Williams and Townsend will not be the only regulars missing from the lineup when the Poly aggregation trots out to meet the Crown City team which held San Diego to a scoreless tie. George Decker, right tackle, also is out of the game for the rest of the year. He suffered a broken collar-bone at San Diego.

Will Accompany Team.
Although their team is out of the running for the Tri-County league championship, members of the Santa Ana high school student body prepared to back their forces to the limit.

A giant rally was held at the auditorium this morning. School will be dismissed at noon tomorrow. Virtually every member of the faculty and student body planned to make the trip to the Crown City.

Because no less than three changes will be necessary, Covington today said he was not sure just what lineup he would send into the Pasadena fray.

Golden at Quarterback.
Wintrey ("Beano") Golden probably will replace Williams at quarterback with Le Bard at fullback and Dan Cook and Luck at halfback positions. Cook will do most of the forward passing and probably the kicking.

Natland and Smith will start at ends with McIntire ready to go in at any moment. Charlie Wood still is suffering from the ankle which took some rough treatment at San Diego and may not be in shape to open up. In case he is held on the sidelines, Dungan and Sheets will begin at tackles.

Wurster, formerly a backfield candidate, has been selected to fill the vacancy left by Townsend at left guard. Dawson draws the other guard assignment and Captain Eddie Linsenbard will play center.

The probable lineup:
Santa Ana Pos. Pasadena
Natland.....RGL.....Jones
Dungan.....RGL.....(C) Crow
Linsenbard (C).....C.....Kirk
Wurster.....LGR.....McClelland
Sheets.....LGR.....Clare
Smith.....LER.....Vincent
Golden.....Q.....O'Connor
Luck.....RGL.....Schmidt
Cook.....LER.....Wright
Le Bard.....P.....Cockburn

FIRPO COMING BACK TO U. S. IN SPRING

NEW YORK, Nov. 8.—Fed up on mistakes which caused the heavy-weight crown to slip out of his fingers and which almost lost him a country, Luis Angel Firpo is going to confine his counsel to United States talent in the future.

The big Argentinian is returning to this country next spring and he is going to campaign for another fight with Jack Dempsey. American talent will arrange the campaign, handle him through the "build up", train him for the fight and back him in his corner.

Before Firpo sailed for home recently he was said to have looked over the list of mistakes made for him by his handlers, the worst of which was the application made for American citizenship papers, and he decided that he had been led into enough boners.

His decision to accept American counsel was confirmed partially last night when Billy McCarney announced that he and his partner, Hugh Gartland, had been engaged to arrange at least twelve bouts for Firpo next summer leading up to a return engagement with Dempsey.

Best tennis rackets—Hawley's.

These pictures graphically show the desperate but unavailing defense offered by the Santa Ana high school football team against San Diego at the Southern city last Saturday. Top, left, Caballero, star San Diego back, being brought to earth by "Barney" Le Bard after he had captured a short forward pass. Bill Luck, local halfback, is seen about to make a dive for Caballero and Captain Ed Linsenbard, at the extreme left, is dashing in to the scene of action. Right, close up of Caballero. The lower picture shows McKain, San Diego end, who has just caught a long forward pass, being tackled by Luck.

'STRANGLER' LEWIS TOYS WITH ROMANO

World's Champ Flops Rival In 6 Minutes at Orana; Jim Londos Winner

Ed ("Strangler") Lewis, the world's greatest wrestler, never will have to fear Jack Romano, known in the fraternity of caulkers, flower ears, thick necks and square shoulders as the "Wild Bull of Bulgaria," as a contender for the title which earns him his daily bread and butter.

The champion disposed of Romano as he pleased before a scattered attendance at the Orange County Athletic club, at Orana, last night. Lewis didn't get the notion of pinning Romano's huge shoulders until six minutes of their main event had elapsed. Then, applying a vicious headlock, he forced the opponent to the mat much in the manner that a tiger would crush some tinier beast of the jungle.

Easily Breaks Holds
Romano obtained several good holds on the "Strangler" before the final demise. These, however, the giant Lewis broke with the ease of the professional strong-man. It was a good workout for the champion.

"Come on, Ed," some bozo in the house shouted. "We've had enough. Throw one of those little arms around his neck and let's go home."

Lewis may not have heard the war but he accommodated by applying the headlock. A minute later the bugs were streaming out of the arena.

The well known "Jeany" Londos, swarthy and lithe champion of Greece, won his match with Joe Prevost in 27 minutes, although it seemed to those at the ringside he could have won whenever the notion struck him. Londos slipped out of half a dozen dangerous positions before he finally applied his headlock and slowly forced Prevost's shoulders to the floor.

Pilling Flops Dyer
Joe Pilling and Eddie Dyer offered an interesting curtain raiser, the former winning in 18 minutes after getting loose from six or seven toe holds.

The handsome man of the movies, Bull Montana, was at the ringside and refereed the Lewis-Romano struggle.

Montana accepted Londos' def and agreed to wrestle the Greek titleholder at the wrestling show to be staged at Orana November 21.

Big Series Check For \$6143.48 Deposited Here

Santa Ana today had received its first world series check.

This little piece of paper, signed by Kenesaw M. Landis, commissioner of baseball, and Leslie M. O'Connor, secretary and worth \$6,143.48, was made payable to Ernie Johnson, utility infielder of the New York Yankees. It represented Johnson's share in the late world series with the Giants. Johnson sent the check to his friend, Alex Brownridge, cashier of the Farmers and Merchants Savings bank of Santa Ana. The money was added to the account which the Yankee infielder carries at the local bank.

Jimmy Austin Says Sisler Will Pilot Browns to Pennant

Jimmy Austin, acting manager of the St. Louis Browns during the last half of the past season, declared here today his belief that George Sisler, who has been appointed manager of the team, will make as great a success as manager as he has been as a baseball player.

Austin lives at Laguna Beach during the off-season. He expects Sisler to pass a part of the winter at the Orange county resort.

Phil Ball, owner of the Browns, made a great move for the advancement of baseball in St. Louis when he appointed Sisler. Austin said. "I feel now that St. Louis fans will soon get what they richly deserve—the pennant. I am for Sisler with all I have."

The visitors were all large and from a rough estimate I should say outweighed the Julia C. Lathrop men at least ten pounds to the man.

With this great disadvantage the Santa Ana men fought like bulls and a great deal of credit should be given Coach Reel for their showing.

With plucky little "Memphis" Hill at quarterback the team seemed possessed and Bob Nelson made such consistent gains around end that Captain Delbert Smith felt it imperative that he do his best and opened up with the best punting of his football career.

The dire enemies or rather opponents of the Julia C. Lathrop junior high school, the Frances E. Willard children showed very fine sportsmanship by yelling for the Julia C. Lathrop team, led by a Frances E. Willard student.

BIG TIMERS TO PLAY AT LAGUNA

An all-star aggregation of major league baseball players, headed by Bob and "Irish" Meusel, heroes of the late world series, will meet the Irvine club as the feature attraction of a program of sports to be held Sunday at Skidmore park, Laguna Beach. The big day will get under way at about 10 a. m.

A barbecue will be one of the chief attractions and several high-class boxing bouts have been scheduled. A nominal admission fee will be charged for the day's amusements.

Bob Meusel will play in the outfield for the big leaguers. He was the boy who poled out a single with the bases full in the last game against the Giants that gave the Yanks the world title. Meusel's blow came after the mighty Babe Ruth had fanned.

Statz In Outfield
Bob's brother, "Irish," a member of the Giant club, will be stationed at another outfield position and the fleet Arnold Statz, lead-off man for the Chicago Cubs, probably will be located in center field.

The All-Star's infield will be composed of Bobby Jones, third baseman for the Detroit Tigers; Jimmy Austin, manager of the St. Louis Browns during the last few months of the 1923 season; Henrie Sand, Philadelphia National league shortstop; and Carl Sawyer, of Vernon, one of baseball's greatest comedians.

"Butch" Byler, catcher for the Los Angeles club of the Pacific Coast league, will handle the big glove. "Lefty" Thomas, pitcher for the same club, and Hollis Thurston, of the Chicago White Sox, will do the twirling.

Cravath to Umpire
"Gavy" Cravath, former home run king of the majors, will umpire the contest.

While Manager Arthur Trickey's Irvine Beanpickers undoubtedly will go down to defeat before this formidable aggregation, the Orange county team is one of the fastest, semi-professional teams on the coast and should keep the score interesting.

WINTER
COMESMIGHTIER
THAN THE
BOOKLIBRARY PLANS
CHILD BOOK
WEEK HERE

Lack of facilities precludes desired participation of the city library here in national Child Book week, November 11 to 17, inclusive, Miss Jeanette McFadden, librarian, declared today.

Pointing out that library conditions were so crowded as to warrant discussion of larger quarters, Miss McFadden stated she deplored the necessity of treating such a national occasion, regarded in library circles as important, in a minor way.

Plans have been worked out here, however, she added, by which the week will be observed at the library with admittedly reduced effort. Books will be placed in convenient locations for use of children and listed in such manner as to make selection easy, Miss McFadden declared.

"We will arrange to place the best books that we have for the children during next week," Miss McFadden promised. "For the smaller tots there will be the nursery rhymes and other appropriate little volumes. Other worthy reading material also may be had by children of every age ranging to that of the adolescent youth. We expect to have books for Boy Scouts, and Campfire Girls."

"Child Book week is a period when libraries, in general, and parents, in particular, may well stress reading information for children," she added. "It seems little less than deplorable that we will be handicapped in our observance of this year because of 'pinched' quarters. I hope next year will see a brighter aspect; brought about, as you may expect me to say, by a larger library building plans."

Miss McFadden took this as an occasion to announce that the library here would be closed Monday, Armistice day, as a legal holiday.

DRAMATIC READER
IS GIVEN PLAUDITS

Selma Lenhart, noted dramatic reader, who reproduces a complete play in an evening, and who will appear here on a junior high school entertainment course tomorrow night, is an experienced entertainer with exceptional ability. She will appear at the Frances E. Willard junior high school.

In presenting an entire cast of widely different characters, Miss Lenhart has the dignity necessary for the heaviest parts and, at the same time, is surprisingly competent in simulating lighter characters, it was said.

Many critics who have heard the platform's most famous monologues venture the strong assertion that she excels her contemporaries in the matter of differentiating her characters.

Miss Lenhart's presentation of "Erstwhile Susan" has been one of her most popular successes. It is the play which she usually gives in communities where she has not before appeared. However, her repertoire includes other plays of equal popularity and a series of delightful miscellaneous sketches, which will be given if requested.

Pour Concrete For
Walker Theater

Pouring of concrete on the new Walker theater on North Main street has been finished and today steel supports for the balcony were being installed. It was announced by C. E. Walker, owner of the theater.

Pointing out that the contracting firm of House and Graham had been working two shifts to hasten construction of the building, Walker said that a third shift will be put on when the steel installation is completed.

Building operations started two months ago. According to Walker the new playhouse will be thrown open to the public on Christmas eve.

CAT RETURNS TO
SORROWING OWNER

HUNTINGTON BEACH, Nov. 8.—Lost and found. 'Tis a queer tale, mates.

Mrs. James Sullivan, prominent woman of the Oil Workers auxiliary and church worker lost her cat. The cat, named "Jiggs," simply disappeared and no one knew where it was.

Of course as time went on and the cat did not return Mrs. Sullivan decided that her cat must be dead and gone. Accordingly she began steps to secure a new cat. "Jiggs" had been raised by his mistress from a kitten and it was with sorrow that Mrs. Sullivan gave up the hope of again seeing her cat.

Monday night at a meeting at the Woman's club Mrs. Sullivan became engaged in some thrilling cat stories with several other of the fine owners and admirers and told them of the loss of her "Jiggs."

One of the women stepped to the door preparatory to departing and opened it slightly when in walked "Jiggs." Right up to his mistress he came and although thin and frail from lack of food he began to purr immediately.

Of course it did seem rather spooky but none of the women faltered, it is claimed. "Jiggs," it was finally determined, had hidden himself in a friend's car on the afternoon of his disappearance and had been taken away.

The friend, Mrs. M. C. Harvey of this city, did not recognize the cat and took him away again. Then he turned up at the club house.

MUSIC TEACHERS
ENTERTAIN LIONS

HUNTINGTON BEACH, Nov. 8.—Miss Irene Loose, music supervisor of the local grammar school, Miss Marjorie Scott, and Miss Arden Dow of the local grammar school faculty, were honorary guests and entertainers of the Lions club at their regular luncheon held in the O'Leary banquet hall yesterday noon.

The meeting was an experience meeting and the members were required to tell some of their experiences.

James L. Hansen and B. T. Gothard were the chairmen of the day. Miss Loose lead the Lions in the club singing and afterward sang several selections. Miss Scott gave a very clever recitation.

Miss Dow gave an interesting talk on "Educational Work."

Select Woman for
Orange Clerk Place

ORANGE, Nov. 8.—At the regular postponed meeting of the Board of trustees of this city Wednesday night, who met to meet applicants for the clerical position open at the city hall, last night appointed Mrs. Bertha Hauserman of this city.

Mrs. Hauserman's duties will consist of clerical work and she will work in the office of the street superintendent and in the office of the tax collector. Her duties will start Nov. 16.

There were ten applicants for the position. Those who had made application for the position were Beatrice Parsons, Margaret Caruthra, Bessie M. Sawyer, Charlotte Weesner, Juna Carlson, Maud Johnson, Grace Bennett, Ellen Van Deusen, Louise Campbell and Mrs. Hauserman.

Stage and Screen

Bert Lytell and Marjorie Daw in a scene from "Rupert of Hentzau" a picture which will be shown for the last times tonight at the West End theater.

TONIGHT'S ATTRACTIONS

WEST END—"Rupert of Hentzau," with Bert Lytell and all-star cast. (Closing).

PRINCESS—"The Conquering Power," with Rodolph Valentino and Alice Terry. (Closing).

YOST—"The Bad Man," with Holbrook Blinn.

TEMPLE—"If Winter Comes," with Percy Marmont.

MANY HUGE SETS BUILT FOR WEST END FILM

Many huge sets were erected for the photodrama, "Rupert of Hentzau," which closes tonight at the West End, and of these the representation of one of Europe's most noted cathedrals was by far the largest. It measured almost three hundred and seventeen feet in length and covered the entire width of the famous stage six on the United studio lot.

On this set the King of Ruritania (played by Bert Lytell), was wedded to the Princess Flavia (interpreted by Elaine Hammerstein), and the ceremony was conducted with all the pomp and splendor of a royal wedding.

To make sure of accuracy in these scenes, the affair was carried out in exact accordance with one of Europe's royal marriages and the official reports of this ceremony were used as text books. Practically every extra in the vicinity was recruited for these scenes, and the ensemble effect of these many hundred players in full costume and military regalia, makes one of the most impressive sights of the picture.

The members of the cast need no introduction to the motion picture public. A glance at the names, Elaine Hammerstein, Bert Lytell, Lew Cody, Claire Windsor, Hobart Bosworth, Bryant Washburn, Marjorie Daw, Mitchell Lewis, Adolphe Menjou, Elmo Lincoln, Irving Cummings, Josephine Crowell, Nigel De Bruillier and Gertrude Astor, is ample proof that one of the greatest casts in screen history was gathered for this production.

PERCY MARMONT VERSATILE IN TEMPLE FILM

Percy Marmont's versatility has extended to such true American characterizations that, though an Englishman, it isn't difficult to imagine the splendid results. But the fact is, the results don't have to be "imagined" because he appears as A. S. M. Hutchinson's English hero in "If Winter Comes" at the Temple theater.

The picture has an unprecedented list of excellent players.

COMPANIES LAY OFF MEN

HUNTINGTON BEACH, Nov. 8.—A large number have been laid off in the local oil field, it became known here today. Men have been laid off several times during the past few days, it is claimed by several of the companies. The Federal Drilling company laid off thirty men the first of this week, and it is claimed that the Petroleum Midway company laid off nearly 65 men recently. The number of men laid off by other companies is not known but it has been rumored that several of the other companies have been disposing of a great deal of their help.

COUGHS, COLDS, WHOOPING COUGH

Mrs. Will Hall, R. No. 3, Baxley, Ga., states: "I am writing to all who suffer from coughs, colds, croup or whooping cough. I cannot recommend Foley's Honey and Tar too much, and I can't keep house without it. Have been using it since 1919 and have found it the best medicine there is for grown-ups and children." Best and largest selling cough and cold remedy in the world. Refuse substitutes.

BANK BOOK BETTER READING THAN MOST NOVELS, LAUDER SAYS IN MAXIMS ON THRIFT

Songs on Economy Share
With Popular Ones In
Program of Comedian

Sir Harry Lauder, the famous Scotch singing comedian, who is to give a program of his unique songs at the high school auditorium here the night of November 15, under the auspices of the Santa Ana Musical association, believes in thrift. "Easy come, easy go" has never been his motto. Some of his homely maxims on thrift are well worth remembering.

"Mitha wadna waste," says Sir Harry, "and I would be disgracing her memory if I wasted."

Here are some of his maxims on thrift:

"Behave toward your purse as you would toward your best friend."

"View the reckless spending of money as foolish, and shun the company of the reckless spender."

"Dress neatly, but not lavishly. A bank pays a higher rate of interest than your back."

"Take your pleasure judiciously. You'll enjoy them better."

"You can sleep better after a hard day's work than after a hard day's idleness."

"Get value from your tradesmen. They watch out that they get food money from you."

"A bank book is better reading

than most novels."

Many of Lauder's songs express the idea of thrift, but, despite this, those who attend his performances discover no lack of generosity in his program. Lauder gives good measure to his audiences, and seems never to tire responding to the requests of his admirers for especially popular songs.

Life Pattern as Need of Youth Told Kiwanis on Father, Son Day

"No boy has made a safe start in life until he has outlined clearly before his mind a worthwhile picture of the man he wants to be."

Members of the Santa Ana Kiwanis club today were reflecting on the thought contained in this statement made in an entertaining and instructive address to the club, at its meeting yesterday noon at St. Ann's Inn, by Prof. George R. Stoner, instructor in English at the union high school at Orange.

The occasion for the address was Father and Sons day with the club. Ernest Crozier Phillips of the local high school faculty was chairman of the program committee. Other members of the committee were J. E. Preston and W. D. Ranney.

"The relationship of the Father to the Son" was the subject of the discourse.

Money Well Spent

The teacher said that the expenditure of \$100 or even \$1000 by the father to get the proper type of man before his son would be money well spent—an investment that in later years would return big interest in the satisfaction the father would have in seeing that son develop into a real man, with ideals that would make him a factor in his community.

Following up his point that the boy must have in his mind the type of man he wants to be, Prof. Stoner said:

"The life history of any worth while man is but the story of struggles to achieve that image of his better self. If, as has been said, we cannot dream ourselves into a character, we must hammer and forge ourselves one. It is also true that we must work toward or from some pattern."

Boys Shown in History

"If it is necessary that the workman know his pattern when steel is to be forged; if the workman must know his model when concrete is to be poured, how vital a matter it is that the image and pattern of manhood be clear and distinct when the stuff of youth is to be cast into the fixed character of a man!"

"And what a splendid opportunity there is for boys in America to grow into worthwhile, splendid, stalwart men. Surely the tang of the very spirit of scores of splendid Americans before him who have lived heroically ought to inspire any American boy to determine to make a worthwhile man of himself."

Pointing out that past history reveals that boys were always present and active in matters of important bearing on the future of the nation, and further pointing out that the relations of father and son always should be close, the speaker said the time comes when each boy must meet life, the greatest of all hazards, alone—or very nearly alone. He said the greatest thing a boy has to meet in life is the experience of moulding for himself a character and a personality.

Achievements Count

"What the boy shall do is im-

portant; what he shall achieve is more important, but what he shall be is the one thing of all importance," said Prof. Stoner.

"If it is true that a worthwhile boy will pay any price to reach the side of a man in danger, and if a true man will pay any price to shield a boy from danger, how regrettable it is that a boy must meet the supreme hazard of life alone. This may seem a strange statement, in view of the fact that we have so many men present for the avowed purpose of helpfulness for boys. A boy must live his own life. A man cannot live it for him. A boy must develop his own judgment and strengthen his will through experience—his own experience and not that of another."

"There is no other way. Boys that are watched and guarded, petted and coaxed continually are forced to live a life of disgust to themselves and of ridicule from their fellows. All we can hope to do is to start the boy in the right direction and then get out of the way and let him go. Garfield spoke a larger truth than he knew when he said that the best thing that could happen a boy was for him to be thrown overboard into the current of life's experience and compelled to sink or swim for himself."

RHEUMATIC NEURITIS

Leaves You Forever

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenru, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. C. S. Kelley Drug Co. can supply you.

Huntington Beach News

BEACH PASTOR GIVES IDEAS ON EVENTS

HUNTINGTON BEACH, Nov. 8.—When God begins to send his judgments on the earth the people may expect them to come in a fourfold manner," declared Rev. Luther Arthur, pastor of the Baptist church here in his sermon "The Japanese Earthquake in the Light of Prophecy." Rev. Arthur delivered the sermon here and then on special invitation later delivered it in Santa Ana in the Immanuel hall. Rev. Arthur said in part:

Here is sermon Ezekiel 14:21: "For thus saith the Lord Jehovah: How much more when I send my four sore judgments upon Jerusalem, the sword, and the famine, and the pestilence, and the evil from it man and beast."

This text and others in the Scriptures prove that when God begins to send his judgments on the earth we may expect them to come in a fourfold manner. "The sword" which symbolizes war, "the famine" which usually follows war, "the pestilence" which usually follows war, and the famine which will destroy both man and beast.

Perhaps, if we understood Bible numerics better, we would understand why they are foretold. Four seems to be the number of the earth's creation. The earth is composed of four great elements, air, fire, water and earth. The four corners of the earth, the four divisions of the day, into morning, noon, evening and midnight, and Jesus taught the earth was round, for he speaks of the earth as being round at midnight, at cock-crowing and in the morning, and the only way he could come at all four of these times at the same time would be for the earth to be round.

"According to Daniel, there were four great Gentile nations that would tread down Jerusalem, the times of the Gentiles be fulfilled, and when God desired to give us the earth history of his Son he gave it to us in four gospels.

Always Deals Forefold "God always deals with the earth in a forefold manner. First, he called Abraham and gave him the promise. Second, he called Moses and gave him the law. Third, he sent his Son to die as our Savior, and fourth, he called Paul to preach unto us the gospel of the grace of God. While grace and truth came by Jesus Christ, he did not preach it in all its fullness, this was left for Paul to do, and before Paul's time no one had ever been permitted to say: "To him that worketh not, but believeth on him that justifieth the ungodly, his faith is reckoned for righteousness." Romans 4:5, R. V.

"God's punitive judgments will always appear upon the earth in a forefold manner, but we find that in the Scriptures the rainbow is mentioned four times, which shows that in the midst of judgments God will show mercy. "In the sixth chapter of Revelation you see the four-fold judgments emphasized. The Greek word for Revelation is Apokalypsis. From the four horsemen mentioned here the author of "The Four Horsemen of the Apocalypse" got his idea. The first horseman comes forth as a great world conqueror. He is liable to appear at any time and when he does it will be a calamity and judgment upon wicked men. Coming as a great world conqueror he will naturally cause the appearance of the second horseman, because war always causes famine and he symbolizes famine. The first three horsemen are the cause of the fourth one appearing, and in the fourth one are blended all the judgments of the first three, for he has the power to "kill with the sword" (which symbolizes war) and "with hunger" (which symbolizes famine that always follows war) and "with pestilence" (as pestilence always follows war and famine) and "with the wild beasts of the earth." Here again we see Ezekiel's fourfold judgments (see Ezekiel 14:21). While it is true, Ezekiel says Jerusalem, this adds that power was given to the fourth horseman over the fourth part of the earth and this evidently means more than Jerusalem.

"Before God has ever done anything in the earth he has always worked it out in types, shadows, and pictures so the simplest minded child can understand. Any one knows a child can understand a picture much better than it can the words of a lecture or book. In Old Testament times when even the most civilized men were unable to read, and much of their thinking was not above that of our children in this day, God did not give them the written word as he does to us now, but he worked out his whole plan of redemption in types, shadows and pictures. When the adults and the children of the family saw the father or priest lay the pascal lamb, they were looking at a picture of the Lamb of God that should come and bear away the sins of the world. All the tabernacles and temple services were given to the immature minds of the people so that they could learn of the shadow and picture what

Business Houses At Beach to Close Monday, Nov. 12

HUNTINGTON BEACH, Nov. 8.—All business houses will be closed in this city November 12, it was announced here today by J. A. Armitage, secretary of the Chamber of Commerce.

"Everyone in Huntington Beach will be at the big celebration at Orange," Mr. Armitage stated.

"The plunge will be closed all day Monday, Nov. 12," said J. M. Barlow, manager.

marily with Jerusalem, but before God brings this to pass, he will work it out so the simplest minded child can see and understand. "Surely the Lord God will do nothing, but he reveals his secret unto his servants the prophets," Amos 3:7.

Within the past ten years, mankind has seen the greatest war in the history of the world, the greatest earthquake in the history of the world, and thus mankind has seen God's foretold judgments worked out so that the simplest mind may see that we are on the eve of the fulfilling of God's prophecies, if in fact their fulfillment has not already begun. Jesus foretold "the great tribulation" that is coming upon the earth. Mt. 24:21; "then shall be great tribulation, such as was not since the beginning of the world to this time, no, nor even shall be." "The great tribulation" is future. In "the great tribulation" the foretold judgments of God will be seen, but before they begin you may see them worked out before your eyes as a warning to mankind. When Jesus had warned mankind of the coming of "the great tribulation" he told us two things. First, that it should come as travail, or birth pangs. Second, the order of events. Both pangs, as we know, begin before the great event, therefore we may expect before the great tribulation, these smaller convulsions of nature.

The words of Jesus, Mt. 24:7, "For nation shall rise against nation, and kingdom against kingdom (that means war) and there shall be famines and earthquakes in divers places, but all these things are the beginning of travail" or birth pangs. Luke's account of this same discourse adds "pestilence." Thus you will see God's foretold judgments worked out before the "great tribulation" begins, because Jesus definitely said "these things are the beginning of travail."

I believe that God has worked out his foretold judgments before us and quite recently.

Recently we had the greatest war the world has ever known. Kingdoms have risen against kingdoms and nations against nations. Ten years ago there were forty-one royal dynasties in the world. They rose against each other, and in seven years 24 had passed away and among them three of the greatest empires in the world. Only 17 are left. Europe lost about 20 million men and spent 250 billion dollars and civilization has almost collapsed from this judgment. Jesus said famines should be among the birth pangs.

In 1920, 13,500,000 were destitute and in a dying condition from famine in China. In 1919 1000 people were dying daily in Petrograd, Russia. The archbishop of Canterbury said: "Never before in the history of the world has a condition of things existed comparable to the ghastly death by famine of whole millions of men, woman and children."

Ezekiel, John and Jesus said pestilence should be a part of and precede God's foretold judgments. The war had hardly ended until the world was visited by the so-called Spanish influenza. The medical correspondent of the London Times said, that in twelve weeks six million persons died of influenza and pneumonia. In India 4,933,133 died within a few months and in some places whole villages were destroyed. It is said that twelve million died in the world from this pestilence. Jesus said earthquakes should precede and be a part of God's foretold judgments upon the earth. Within the past few weeks you have noticed the greatest earthquake the world has ever known, and according to Jesus you and I have lived to see the "beginning of sorrows." We are watching the death throes of a dying age. We are seeing God's last danger signals held out to a dying race. By these judgments God is calling men to repentance.

INDUSTRIAL SITE URGED BY CHAMBER

HUNTINGTON BEACH, Nov. 8.—Regular reports of the month were heard at the meeting of the chamber of commerce directors meeting held in the Obar banquet hall Tuesday noon.

The meeting was held under the new plan of the one hour meetings. Lynn Colburn reported that he had been approached by representatives from a number of factories which were seeking a suitable location.

It was suggested that the chamber look into the matter and possibly arrange for a large piece of land located in a suitable place which could be developed into a manufacturing center.

It was decided by the chamber that the matter would be looked into although no official action was taken in regard to the move.

It was recently stated that this city was to have a cotton mill.

Although Catalina Island was plainly visible from the local coast, the clouds were so thick that it was impossible to see anything but the peaks of the mountains at Catalina screened the battleships efficiently, and people here could not watch the actions of the fleet as they have been doing during the past few days.

HUNTINGTON BEACH, Nov. 8.—Arrangements for the swimming meet to be held at the local plunge Nov. 22 are rapidly being perfected under the management of Coach Ted Combs.

Nearly twenty boys and girls of Huntington Beach are reporting each evening for instruction in swimming. They intend to enter the meet.

Jack Kilburn, local swimmer and former Los Angeles Athletic club star, is rapidly rounding into form under Combs' instructions. Kilburn is said to be nearly as good as he was several years ago when he withdrew from swimming circles. He is expected to take some of the prizes at the meet.

Swimmers from over Orange county are urged to take part in the meet. No entrance fee is to be charged and the people of the county will be given a chance to view local swimmers in action.

Coach Combs thinks it possible that some fine swimmers may be uncovered at the meet. Interest here has been increasing by leaps and bounds. Many of the boys of the town are being drilled in the chain dive, which will be one of the events of the evening. Several other exhibitions will also be given during the evening.

Duke Kahanamoku will be present at the plunge, it was announced today. The duke is recognized as one of the world's fastest swimmers. He will give several exhibitions in swimming and diving.

A local relay team is also being coached by Combs with a view of entering it later in a national A. U. meet at Huntington Beach.

HUNTINGTON BEACH, Nov. 8.—Work on Ocean Avenue was resumed again yesterday following a delay of nearly one month caused by the lack of a steam shovel.

It was stated that the steam shovel which the contractor had rented was under contract until October 1, and at the expiration of the contract it was taken away. A new shovel has been promised the contractor by Oct. 1 but did not arrive, consequently the work was delayed.

G. M. Souter, contractor, has about fifteen blocks prepared for the laying of the pavement and with the new shovel at work the entire stretch of road should soon be ready for the forced delay. Mr. Souter had his men busy on the erection of the plant, which will mix the paving materials.

Fill-in work on the highway from this city to Newport is progressing again as the steam shovel is again filling the huge trucks with surplus dirt.

It is thought that the pavement of Ocean avenue will be completed by Jan. 1, 1924.

Two Oil Workers Make Fast Recovery

HUNTINGTON BEACH, Nov. 8.—F. F. Taylor of 621 Garfield street, Santa Ana, and A. D. Prink of this city are now well on their way to recovery following the explosion of one of the Holly Oil company's steam turbines.

Taylor who was standing close to the turbine, was badly bruised and cut. It was necessary to take several stitches in his left leg.

Mr. Prink was struck a solid blow in the ribs. The men were taken to the emergency hospital, where they received treatment. Mr. Taylor is now at his home in Santa Ana.

Considerable damage was done to the plant in which the engine was situated. The building will be repaired.

BEACH CHAMBER PLANS DRIVE TO ORANGE

HUNTINGTON BEACH, Nov. 8.—A caravan of nearly 100 machines will leave for the Armistice day program at Orange if the plans of the chamber of commerce of this city are carried out as planned it was announced today by J. A. Armitage, secretary of the chamber.

Work is being carried out by the chamber in regard to the entering of the various floats by various organizations and clubs of the city, as well as the two schools.

The caravan will leave the front of the chamber of commerce building at 8:30 o'clock Monday morning and will provide transportation for the Huntington Beach Municipal band. Mr. Armitage stated that he expected 100 machines would start. They will travel to Orange in a parade form with local banners and signs.

L. F. Gates, city engineer, will lead the band in the parade at Orange as drum major. Two members of the Lions club are to be appointed to carry a large banner before the band.

The grammar school float, being prepared by the students and members of the art and history classes and their teachers, will depict the "Mayflower" and the high school students are concentrating their efforts on a float to be called the "Inauguration of Washington." Students at the high school have been at work on the float for some time.

The Lions club have entered their float "Early California" and will have some real pioneers of the early days on the float.

The local American Legion also expect to win the prize offered for their float depicting "A Field Kitchen."

HUNTINGTON BEACH, Nov. 8.—David Jones of this city was host to a number of his schoolmates at a high school dance given at the Women's club house Saturday evening.

The building was decorated and a special orchestra furnished music during the evening. Refreshments were served by Mrs. Kuhry, Mrs. Lois C. Robb and Mrs. R. E. Cleave.

Those present at the party were Fern Kuhry, Charles Cook, Albert Maddux, John Soden, Lucille Harrell, Gilbert Harrell, Frances Winkle, Ernest Doney, Benjamin Herron, Opal Dowdy, Clyde Seitzer, Victor Terry, Lynette Robb, Helen Cleave, Marion Cleave, Earl Sullivan and the host, David Jones.

HUNTINGTON BEACH, Nov. 8.—Local scouts are hard at work on the stunt which they intend to present at the Armistice day celebration at Orange. The Scouts plan to march through the town with the parade.

A meeting of the Scouts was held last night to determine where the necessary clothing and old flintlock guns and pistols would be secured. The boys march will depict the "Lewis and Clark Expedition" and the local Scouts intend to have it carried through the parade.

C. B. Morris, local scoutmaster, accompanied by Miss Guida Fadler of this city, will spend this evening as the guests of Mr. and Mrs. Ronald E. Dye of Santa Ana at a party which will be given at the Church of the Messiah in Santa Ana in honor of Mr. and Mrs. Victor Teaney.

VILLA PARK, Nov. 8.—The Shakespeare club met with Mrs. H. D. Nichols Thursday afternoon, spending a most enjoyable time. After the usual routine business, the reading and discussion of Sonnets 40 to 50, Mrs. A. E. Hughes and Mrs. E. H. Adams gave a description of their trip to Yosemite valley and showed kodak pictures of the trip which were very interesting.

Then the play of Henry IV, Part two was taken up. Members present were Miss Elizabeth Lee, Margaret Holditch, Mesdames G. E. Bushman, E. H. Adams, Ellen Holditch, Elma Lee, J. H. Morningstar, A. E. Hughes, Frank Lord and H. D. Nichols. The next meeting will be with Mrs. Bushman in two weeks.

Carl Schaefer of Venice visited with Mr. and Mrs. W. J. Rasch for a few days before leaving for Grand Rapids, Mich.

Bronson Holditch and J. B. Handy returned from a trip to Imperial valley, Saturday evening.

Mr. and Mrs. Roy Warren and sons spent Saturday in Los Angeles.

Frank H. Collins, George Goetsch and William Gaudy spent a couple of days at Escondido, returning Saturday evening.

Mrs. Marie Hanselman of Compton is spending a few days with her son, Linn O. Hanselman, and family. She arrived here Saturday evening.

Mr. and Mrs. Sam Robb of Santa Ana visited with the E. H. Adams family Sunday afternoon.

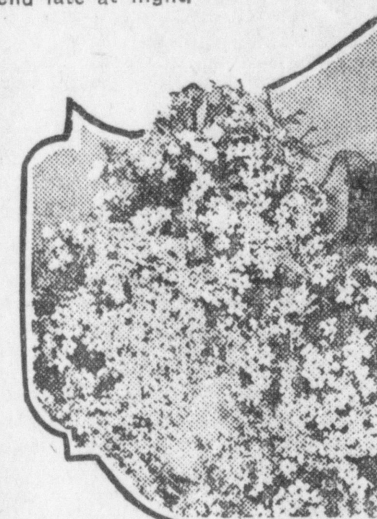

Orange County News

Reminder You Can't Forget

You can't forget America's disabled warriors. Thousands of pretty girls throughout the country are going to remind one, gently but forcibly, that Saturday, November 10, is the "boys' day."

In every Orange county and American city where there is a post of the Disabled Veterans of the World War, comely maidens, armed with bunches of "forget-me-nots" will be waiting for their victims.

And, of course, they won't be turned down. Emily Wilkens, in this picture, is showing the smile that will lure the silver from the pockets of Orange county people. The "tagging" will begin early in the morning and end late at night.

RICH ORE STRUCK IN OLD MINE, CLAIM

ANAHEIM, Nov. 8.—A number of Anaheim investors are being made happy because of the opening up of a large body of ore in the old Blue Light Silver mine, located twelve miles southeast of the Orange county park.

Couriers from the mine last evening brought the news that a body of ore four feet wide and four feet thick had been discovered and that the ore runs from 20 to 100 ounces of silver to the ton.

Most of the stock of the company is owned by Anaheim and Orange county people. Charles E. Yagbrod of Anaheim is president of the company and Stanley Chapman of Fullerton is vice president.

W. S. Pember of Anaheim is superintendent. It is said that 30,000 tons of ore have been blocked out in the upper working of the mine. A tunnel 1,000 feet in length has been driven under this body of ore.

The mine is located in the Silverado canyon at an elevation of 2900 to 3200 feet. Fifteen men are now employed and the number will be increased as soon as the new mill, which has been purchased, can be installed.

Experienced mining men are of the opinion that the mine gives promise of opening up a great body of ore that can be worked at a profit.

There is talk of platting a townsite near the mine.

Machinery Arrives for Cordage Plant

ORANGE, Nov. 8.—With the nearing of completion of the building to be occupied by the Western Cordage company and the arrival of two carloads of machinery for the plant, that company expects to be installed in their new plant building by the first of the year and to be running full blast by that time.

Two more carloads of machinery are expected, it was said.

The new building of the company was erected at a cost of \$125,000 and the machinery will cost approximately \$30,000.

Hard Time Costume Dance, Costa Mesa Club House, Saturday night. Chapman's orchestra.

FRIENDS NOTICED IMPROVEMENT

Wonderful Results from Lydia E. Pinkham's Vegetable Compound

Bethel, Wis.—My female trouble was brought on by overwork. I had worked in stores and had to do heavier work than my strength could stand, and had to be on my feet most of the time. Finally I had to give up this work entirely and stay at home. Doctor's medicine did not give me much relief, and my mother wanted me to take Lydia E. Pinkham's Vegetable Compound. I took a couple of bottles of it and thought it did not help me as much as it should, so I gave it up to try something else. Nothing I took helped me much, so I finally decided to give the Vegetable Compound another trial and to take enough of it to make sure it would help me. I have taken it over a year now and it has brought wonderful results. I have gained from 93 to 110 pounds and am keeping house now. My friends all notice the change in my health. I will be glad to answer all letters that women write to me about the Vegetable Compound.

—Mrs. W. G. MONSON, 1515 Park Ave., Elletts, Wis.

Mrs. Monson is willing to write to any woman suffering from such troubles.

RURAL READERS

The Register wants you to get the paper every day. The reading of the classified ads one day alone may mean the saving of considerable money to you. If you miss your paper call one of the numbers below and the paper will be delivered.

ORANGE — Scharr's News Stand, 109 East Chapman avenue, Telephone 179-R.

TUSTIN — Tustin Drug Company, Telephone 16-J.

HUNTINGTON BEACH — W. Lewis, 704 Huntington avenue, Telephone 1341.

Postal Receipts At Anaheim Increasing

ANAHEIM, Nov. 8.—A steady increase in the amount of postal receipts at the Anaheim postoffice and the increase in the percentage from month to month is one of the best evidences of the rapid growth in the population of Anaheim.

Postmaster Harry Whitaker announced, after computing the figures for the month of October, that the increase for the month was more than 18 per cent over the amount of business for the same month a year ago. The receipts for October, 1923, were \$4244.07 as compared with \$3470.51 for October, 1922.

This brings the total receipts for the first ten months of 1923 to \$34,802.69, while the receipts for the first ten months of 1922 were only \$31,138.62. The increase for the ten month period has been more than 12 per cent.

One of the most encouraging features of the figures to which Postmaster Whitaker calls attention is the increase each month over the increase for the previous month this year. While the average increase for the first ten months of 1923 is only 12 per cent over the same period for 1922, the increase for October is more than 18 per cent.

Two of the best months in the postal business as yet to come, and Postmaster Whitaker expects the receipts of the office to make a record increase for the months of November and December.

EL PASO, Texas, Nov. 8.—Nathan Pierce, 19-year-old El Paso youth, with a half dollar in his jeans, grew tired of his job in his brother's garage and set out for parts other than Southwestern Texas. Kansas City was his ultimate destination.

The youthful traveler rode passenger trains—blind baggage—as far as Amarillo, Texas. The sheriff for Nathan. So the farmer notified authorities and Nathan was returned to his old job. He arrived in El Paso with 15 cents of his original half dollar capital and had traveled 1000 miles during the four weeks he was gone.

Photographs are appropriate Xmas gifts and are reasonably priced at "Boden's Studio"; 107 1/2 E. 4th St., S. A. Sitings on Sunday by appointment. Phone 2115.

ABOUT LAGUNA NEWS

Jeanne DeAnna is the correspondent of The Register at Laguna Beach. Persons having news for this paper can reach her by calling number 62 on the telephone or inquiring at the office of Laguna Life.

KEEN INTEREST IN LAGUNA BEACH WELL

LAGUNA BEACH, Nov. 8.—Oil operators are manifesting a great deal of interest in the outcome of the wildcat well being drilled by the Laguna Beach Oil association.

The well is located about three-quarters of a mile southeast of Laguna Beach. Special interest is attached to this well because the drilling has recently been taken over by Fred Stone, inventor of the hydraulic diamond drill.

The well was drilled to a depth of 4445 feet with cable tools before Mr. Stone took over the work. At a depth of 4445 feet, the tools were lost in the hole with an underreamer lug lodged in them. With the diamond drill a three and one-half inch core was taken, which determined the trouble.

This well at Laguna Beach it to be carried down to 5500 feet with a hydraulic rotary diamond drilling outfit. Cores taken from the well at 4400 feet showed a sandy shale without any oil. The water was shut off at 4332 feet and the six and one-quarter inch casing has been set.

The well is located near the axis on a broad anticline which is closed on one end, geologists say. The reserve dips are said to average between twelve and fourteen degrees.

The directors of the company are George E. Smith, president; B. E. Schuk, treasurer; Warren P. Elder, Charles White, J. O. Adams, A. Bedford, E. E. Burgess, all of West and brother, William West, Wylie Dawson and Cecil Starkey, were dinner guests that evening and later they were joined by Earl Presson of Norwalk, Miss Thelma McKinney of Westminster and the Misses Blanche Helm and Frances Chandler of this place. A pleasant time was spent with piano and Victrola music.

Mrs. S. E. Talbert's sister and brother-in-law, Mr. and Mrs. John Pettitt, their daughter, Mrs. Ethel Perrin and son, Junior, of Whittier were her guests for the day Monday.

Mr. and Mrs. John Shutt jr., Miss Flossie Draper and Mr. and Mrs. Harry Harper and son, Jack, at Laguna Beach, were in Santa Ana Saturday evening.

Mrs. Will Talbert of Long Beach, an aunt of Sam Talbert, was a visitor at his home Thursday and Friday night and on Friday she went to Huntington Beach.

Mrs. J. H. Cox spent a few days this week visiting in Santa Ana at the home of her daughter, Mrs. Callie Worthy.

Miss Alpha Gilbert spent from Friday until Monday in Los Angeles with Miss Helen West, a former Talbert girl. Miss Gilbert motored home with Earl Presson of Norwalk.

Mrs. D. C. Gilbert is looking forward to the arrival of her uncle, Fred Gates and cousin, Mrs. Hathaway, and Mr. Hathaway, who are leaving New York for California December 1. Mrs. Gilbert has never met either of these relatives.

Mr. and Mrs. Tammany Vincent and small daughter, Dorothy, were dinner guests on Sunday of Mr. and Mrs. S. E. Talbert, and in the evening R. H. Obar and family of Santa Ana were dinner guests.

HUNTINGTON BEACH, Nov. 8.—The first building permit of the month was issued to J. C. Fadler, of 220 Tenth street, Monday. The permit was for improvements valued at \$50 to a porch to be added to his home. Last month the building permits totaled well over \$30,000.

DIRECTORS OF LAGUNA BANK UNDER FIRE

LAGUNA BEACH, Nov. 8.—The Citizens' bank of Laguna Beach apparently had two boards of directors. This situation is the result of a meeting of some thirty-nine stockholders who, by vote, removed the present directors, Messrs. Thurston, Skidmore, Murphy and Purpus, and elected Joe Jahraus, E. W. Pine, Isaac Springer, E. T. Bowen and J. S. Thurston.

Advised Not To Resign The old board refused to resign, it was learned today, when the state banking department advised them not to take such a step until a more complete investigation had been made into the bank's affairs.

Both the "old" and the "new" board members are unanimous in one thing, that the future of the bank and its resources are assured, it was declared.

It was hinted, however, that in order to solve the problem of the conflicting directors that court action might be taken. Neither side would say that his was to be done. The meeting is said to have been called by President Isaac Springer because of friction between himself as head of the institution, and his directors.

Attorney H. J. Forgy of Santa Ana, representing the "old" board of directors, gained the floor and told the stockholders that should they insist upon going ahead with the meeting that he might, on behalf of his clients, seek to annul the meeting through the courts. He claimed according to Section 310 of the state civil code incident with notice of the meeting had been given to make it valid.

In the face of this warning the stockholders went ahead, removed the "old" board and placed the "new" directors in their places. The meeting adjourned without any further action being taken.

There was no statement from the directors under the new agreement that made J. V. Skidmore, who declared that the directors would decline to make any statement until the proper time, adding that later on he believed the stockholders would find that their directors had acted in good faith and for the best interests of Laguna Beach.

L. M. Maynard, an officer of the National City bank of Los Angeles, present as associate counsel with Mr. Forgy, said that he was surprised at Mr. Springer's attitude in the matter.

"I have been in personal contact with the case from the beginning," he said, "and of all the fair-minded attempts to bring honor to a bank official, and success and progress to a community, this one is the most complete. The board of directors have for some time been pre-arranging for Mr. Springer to spread some of his stock around among more of the people of this immediate district, with the understanding that none of it come to them."

"I am deeply interested in this Laguna Beach bank, in more than merely a commercial way, because I might call myself its resident. It was I who first preached its ambitions and desires to the people of Laguna, and I will miss my guess completely if sooner or later the people here do not see that a bank is a business with a very close and fundamental relationship to each of them. As such they must insist that the institution be kept for the benefit of the community in all practical ways."

"There is, I fear, a misunderstanding somewhere in Mr. Springer's mind about this affair. I can say, however, that no stone has been left unturned by Messrs. Skidmore, Thurston, Murphy and Purpus in having their intentions and acts criticized and regulated. It is a business with a very close and fundamental relationship to each of them. As such they must insist that the institution be kept for the benefit of the community in all practical ways."

TALBERT

TALBERT, Nov. 8.—A pleasant social gathering was held at the D. C. Gilbert home when the young people of the family entertained a few of their friends informally. The Los Angeles members of the party who included Miss Helen West and brother, William West, Wylie Dawson and Cecil Starkey, were dinner guests that evening and later they were joined by Earl Presson of Norwalk, Miss Thelma McKinney of Westminster and the Misses Blanche Helm and Frances Chandler of this place. A pleasant time was spent with piano and Victrola music.

Mrs. S. E. Talbert's sister and brother-in-law, Mr. and Mrs. John Pettitt, their daughter, Mrs. Ethel Perrin and son, Junior, of Whittier were her guests for the day Monday.

Mr. and Mrs. John Shutt jr., Miss Flossie Draper and Mr. and Mrs. Harry Harper and son, Jack, at Laguna Beach, were in Santa Ana Saturday evening.

Mrs. Will Talbert of Long Beach, an aunt of Sam Talbert, was a visitor at his home Thursday and Friday night and on Friday she went to Huntington Beach.

A PUZZLE A DAY

A man stood at the corner of two streets. Beside him was a sign post, with two name plates at right angles to each other, telling the names of the streets. The post, however, had fallen to the ground. How did the man, who was a stranger in the locality, discover which street was which?

Yesterday's answer

The drawing shows how easily the keystone may be divided into four pieces. A and B are exactly the same; while B and B are the same. The "knob" of the keystone is not divided.
